Four Railroad Brotherhoods
May Join Federation
of Labor

WASHINGTON, Oct. 24.—A conference of the heads of all international unions connected with the American Federation of Labor has been called to meet in Washington at an "early date," Samuel Gompers revealed today in a telegram to the Illinois State Federation of Labor, in convention at Peoria, Ill.

Gompers' telegram was an answer to one authorized by the Illinois federation suggesting a convention of the American Federation of Labor to perfect an offensive alliance of the union officials of this country and Canada to fight labor battles.

The Peoria telegram was sent Gompers after the withdrawal of the labor group from the industrial conference, Gompers said:

Telegram of Gompers
"Telegram just received. Executive Council of the American Federation of Labor before its adjournment Tuesday evening adopted declaration calling for a conference to be held at Washington at an early date to deal with several of the subjects contained in message. I trust that the convention of the Illinois State Federation will be harmonious and successful in every way."

The call of the conference of union heads today was taken here to mean that organized labor is tightening its ranks for a fight to the finish in the steel strike, as well as in other industrial conflicts now in progress or threatened.

In leaving the industrial conference Wednesday, following defeat of the collective bargaining resolution, Gompers said:

Threat Is Recalled
"You have defeated the labor group in its declaration, but we will meet you again in conference and when we do meet you there, you will be glad to talk collective bargaining."

Gompers has also announced that contributions from labor organizations will be asked to support the steel strike.

As Gompers' telegram went out, miners and railroad men were planning a meeting with a view to forming an alliance with those two unions. It was also learned today that the four railroad brotherhoods are considering joining the American Federation of Labor.

OPEN SHOP DEFENDED BY GARY IN SPEECH

NEW YORK, Oct. 24.—Judge Elbert H. Gary, chairman of the United States Steel Corporation, defended the "open shop" in an address before the American Iron and Steel Institute here today. He declared that his experience had shown that "the open shop is to the best interests of all," and that he believed the verdict of the people at large will finally decide this question.

"Every proposition contended for by the labor unions has led to domination of the shop and of the men by union leaders," said Gary. "Every position taken by the other side has centered on the 'open shop.' This is the great question confronting the American people, and, in fact, the world over."

PROPOSALS BY BULGARIA
PARIS, Oct. 24.—Bulgarian peace delegates submitted a number of counter proposals to their treaty today.

GREAT LABOR MEETING CALLED TO FIGHT BATTLES FOR UNIONS

Stephens Is Urged To Include Food Cost In Special Session

LOS ANGELES, Cal., Oct. 24.—Governor Stephens is urged to include the high cost of living in the subjects to be considered by the proposed special session of the legislature which may be called to consider national women's suffrage, in a letter sent to the Governor today by Senator Wm. E. Brown, of Los Angeles. Declaring that the Governor has been quoted as saying nothing but suffrage will be included in the call, Brown wrote:

"I sincerely hope that you are misquoted in this as the most important question that confronts the people of California in this hour is the ever-increasing cost of living. It is well known that this unbearable and unnecessary condition is largely due to speculation and profiteering which could be corrected in a great measure if we had a proper law under which we could reach the despicable profiteers, who laugh while they juggle with the necessities of life.

"As you know our so-called Cartwright anti-trust law is a joke, the teeth having been extracted from it by the legislature of 1909.

"The attorney-general advises me that a number of other states have efficient anti-trust laws under which the combinations in restraint of trade can be reached, but that the Cartwright act in its emasculated form is practically useless. This matter could be easily rectified by the legislature simply amending the law so that it would contain its original provisions."

Lloyd George Government Defeated In Commons Is Facing Serious Situation

By ED. L. KEEN

(United Press Staff Correspondent)

LONDON, Oct. 24.—The Lloyd George Government faces a serious situation as the result of last night's defeat in the House of Commons, according to the opinion generally expressed by the press today. The question on which the government lost 185 to 113 was a minor one—having to do with an amendment to the alien bill—but the impression prevailed that the vote was an indication of parliament's attitude toward the present cabinet.

As soon as the vote was announced (the Anglo-French agreement of 1913. Unionists, Laborites Unite) Andrew Bonar Law, government spokesman, obtained an adjournment until Monday to permit the cabinet to decide upon its next move. Many officials and political experts professed to believe that resignation of Premier Lloyd George was certain.

The amendment to the alien bill would have changed the clause barring all aliens from receiving British pilots certificates to exclude the French, so as not to conflict with

Red Agitators at Gary Go Unprosecuted, Is Charge

WASHINGTON, Oct. 24.—Red agitators in the Gary steel district have gone unprosecuted, although names were supplied to the department of justice several months ago, Lieutenant D. C. Van Buren, a military intelligence officer, told the senate labor committee, investigating the steel strike today.

A nation-wide strike to free political prisoners was part of the plan, the committee was told.

Names of the so-called red agitators were given to intelligence officers last May and turned over to the department of justice, according to witnesses.

He told of alleged red activity in connection with the steel strike in the Gary district. No disturbances have resulted since martial law was declared, Van Buren said. Names of agitators were furnished by the chief of police at Gary, Van Buren said.

Miners and Railroad Men To Discuss Nationalization

WASHINGTON, Oct. 24.—Committees of miners and railroad brotherhood men, representing two of the strongest organizations in America, planned to meet here today to discuss nationalization of their industries.

By nationalization, members of both committees mean the ownership of the mines and railroads by the government with the workers having a share in their management, operation and profits.

The miners' committee which was appointed at the recent Cleveland convention is headed by W. D. Van Horn of Terra Haute, Ind.

"We hope to bring about a permanent alliance with the railroad men,"

said Van Horn today. "One of the principal aims of this alliance, if formed, will be to further nationalization."

"The railroad men have endorsed nationalization and so have the miners. Combined, the two unions would give powerful support to the plan."

Both have endorsed nationalization. The miners declare that their pending strike has nothing to do with their nationalization program, which they say is a political and not an economic question.

The railroad men have also told congressional committees they would not strike to force adoption of the Plumb plan.

GENTLE RAIN WILL PROVE BENEFIT TO GROWERS

Beets, Beans and Walnuts
Will Not Be Damaged
By Precipitation

Santa Ana—
Storm to 7 a. m.44
Total for season1.71
To date last season81
Orange55
McPherson71
Villa Park40
Olive50

WITH the walnut crop mostly under cover, all the beans of the county harvested except possibly 200 or 300 acres, and the hay crop pretty well in, the rain storm which struck this section about 3 o'clock this morning is welcomed by all growers.

The precipitation between the hour of starting and 7 o'clock this morning amounted to .44 of an inch, indicating the character of the downpour. It rained easily and gently, but steadily for several hours.

None of the moisture will go to waste, for the ground soaked it up as fast as it fell. Should the rain continue for any length of time and be heavy, picking of citrus fruit might be halted for a few days. The citrus orchards as a whole will be greatly benefited by the rain.

It is believed that all the beans of the county except about sixty or seventy acres at Smeltzer and about 150 acres at Greenview have been threshed. There may be other small acreages in different sections that may bring the total of unharvested acres up to 300.

Beets are past possible damage by rain. The crop probably will be cleaned up within the next ten days, unless heavy rains prevail, which would delay harvesting. It is too late in the season, and too cold to start beets to growing again, so no damage can result to this crop still in the ground.

Many acres of bean lands in the unirrigated sections have been plowed in anticipation of the rains and a protracted spell of dampness would be welcome by growers.

Los Angeles Rainfall Is Double Its Normal Figure

LOS ANGELES, Oct. 24.—Heavy rain which fell throughout last night brought the seasonal rainfall for Los Angeles today to more than double the normal figure.

Ranchers are rejoicing. More rain is predicted. Twenty-six hundredths of an inch of rain had fallen up to 6 a. m. today, according to the weather bureau, and the downpour was continuing. This made the total for the season to date 1.55 inches against a normal of .63 inches.

San Pedro received the heaviest downpour last night, 4.1 inches. San Diego reported a trace and Santa Barbara only .05.

The weather bureau said the storm came in from the direction of Tonopah, Nevada, and missed many interior California districts.

CABLE NEGOTIATIONS WITH JAPS PROGRESS

LOS ANGELES, Oct. 24.—Negotiations for laying a new cable across the Pacific to Japan are "progressing as fast as is customary in negotiating landing rights with a foreign country," George C. Ward, vice president and general manager of the Commercial Pacific Cable Company declared in a statement given out here today.

"We are awaiting communication from the Japanese government in regard to the terms and conditions under which we may land our proposed duplicate cable to Japan. In the meantime there is no real delay as the manufacture of the cable will take at least two years."

Baby Is Strangely Missing Can't Find Trace of Child Making Nationwide Search

BILLY DANSEY

Perfect Boy Drops From
Sight While at Play
Around Home

HAMMONTON, N. J., Oct. 24.—What has become of Billy Dansey, the perfect baby?

The little fellow has been missing for some weeks and not a tract of him has been found. He had been playing around home as usual and disappeared. Search was made of the neighborhood but no one had seen him. Then the police were notified. They searched the entire town and countryside but still no trace was found. The hunt has become nationwide.

His parents can not believe the baby has been kidnapped as they can assign no reason for such an act and they have received no request for a reward for his return. They have no enemies that they know about. The entire case is enveloped in mystery. Meantime the search goes on and the parents are almost distracted.

Little Billy's picture was carried in an October magazine under the caption, "Ideal Registered Baby." He is two years and ten months old.

BULLETINS

WASHINGTON, Oct. 24.—Victor Berger, Milwaukee Socialist, should be excluded from the House of Representatives because of his conviction under the espionage act, the house elections committee decided today by a vote of 8 to 1.

WASHINGTON, Oct. 24.—Reservations to the peace treaty agreed upon by the foreign relations committee were reported to the senate today by Chairman Lodge. The reservations are said by Lodge to be backed by a majority of the senate. The preamble requires that they be approved by three of the leading allied powers before American ratification of the treaty becomes effective.

WASHINGTON, Oct. 24.—An appeal for aid for department of justice investigators who are engaged in stamping out bolshevism in the Youngstown, O., steel district, was presented to the senate today by Senator Harding of Ohio.

LOS ANGELES, Oct. 24.—Revealing that the sugar situation in Southern California comes near to actual famine, grocers today announced that the large retail grocery stores have been limited to one sack of sugar per day and that small stores are lucky if they get one sack per week. Sugar rationing already in effect here for the last few weeks is to be made more strict.

OFFERS BILL TO STAMP OUT RADICALS

WASHINGTON, Oct. 24.—A bill aimed at stamping out every vestige of radical agitation in the United States was introduced today by Senator McKellar of Tennessee. The bill provides that anyone even peaceably agitating the overthrow of any government and persons associating either publicly or privately with such advocates, shall be fined at least \$6,000 or imprisoned from one to ten years. A jury may order such persons deported to a portion of the Philippine Islands to be set aside for this purpose.

The bill includes "every citizen of the United States who directly or indirectly commences or carries on any verbal, written or printed interference or correspondence with any other person or persons whether citizen or alien or by violence to overthrow the government of the United States, or to disintegrate or in any other manner set aside or do away with all government, or who joins any organization having this purpose, or who directly or indirectly, publicly or privately associates himself or herself with a person or persons having such purpose. Such persons will be held enemies of the United States and giving them aid and comfort."

McKellar also introduced a new Americanization bill to deport aliens who do not become Americanized after five years in this country, and requiring large employers to provide educational facilities or pay for time of employees while attending school.

6000 Rockefeller Steel Workers Still On Strike

FUEBLO, Colo., Oct. 24.—With the framing of industrial peace in the hands of J. D. Rockefeller, Jr., at Washington, 6000 employees in his steel plant here have been on strike since the opening day of the nationwide steel workers' walkout. In this plant Rockefeller's famous industrial democracy plan, in which the employees elected their own representatives to meet with the company officials, had been in effect over three years when the plant was completely shut down by the strike.

The company officials are willing to deal with the men individually or collectively, but will not recognize their union.

SENATOR MARTIN ILL.
CHARLOTTESVILLE, Va., Oct. 24.—Thomas Martin, 72 years old, senior senator from Virginia, is critically ill at the University Hospital here.

OTHER MEN MAY BRING PEACE IS BELIEF

Rockefeller, Jr., Heads Body
That Framed Report to
Public Group

MAY ASK WILSON TO
INCREASE MEMBERS

More Direct Representation
of Employers to Help
Solve Problem

WASHINGTON, Oct. 24.—The public group at the National Industrial Conference late today began framing a report to President Wilson, before disbanding.

The report was written by the committee headed by John D. Rockefeller, Jr., and emphasized that another conference including in its personnel more direct representation of employers, might succeed in bringing industrial peace.

Rockefeller began work late yesterday when the public group of the original national industrial conference named him chairman of a committee to decide how it shall carry out President Wilson's request that the work of the conference be continued.

Rockefeller left the meeting and walked to his hotel, carrying a big sheaf of papers. Confering with other members of the committee today, he framed a report that was presented to the public group at an executive session this afternoon. Other members of the committee are: John Spargo, socialist; Anna Tarbell, woman writer, noted chiefly for her history of Rockefeller's father and of the Standard Oil Company; Thomas D. Jones and Ward M. Burgess of Omaha, Nebraska.

How to Continue Work
Rockefeller and members of the committee are considering how to continue the work of the national industrial conference through the public group, and at the same time how to give the group a new standing in the public estimation.

At a meeting late yesterday many members expressed belief that the breakup of the conference which followed walkout of the labor group has caused the whole affair to take on the aspect of failure as far as public opinion is concerned. They are anxious, if the public group attempts to carry on the work of the whole conference that the group be given a new standing or be reorganized, so that it shall not be handicapped by the failure of the conference as a whole to get results.

Rockefeller, in a speech which was described as "safe, conservative, moderate and sane," likened the problem now before the public group to that of a tailor trying to make a new garment out of an old suit of clothes.

He liked to work with new cloth, he said, but declared that the old garment might be used as a pattern.

Wants New Name
As a result of this feeling, the group may ask President Wilson to give it a fresh start as an industrial peace conference by reorganizing it and giving it a new name.

Approximately 500,000 workers now are engaged in strikes, estimating the steel strikers at 200,000. Approximately 300,000 harbor workers, machinists and other workers are also out. Approximately 1,500,000 men are threatening strike or pressing for higher wages.

These include 500,000 miners now under orders to walk out November 1, unless a decision is reached. In mediation now being conducted by Secretary of Labor Wilson. More than 1,000,000 railroad workers are preparing to renew their demands for increased wages, believing that the government has made little progress in reducing living costs.

November 1, it is believed, will bring a climax in the whole industrial situation. And Rockefeller, Jr., who achieved a reputation for studiousness in the conference meetings, is "sitting on the lid." It was phrased here today.

City and County Briefs

Announcement is made that C. W. Jackman and wife, Dr. Caroline Paine Jackman, with her mother, Mrs. Paine, will remove to Glendale, where they will live at 515 Kenwood avenue. Dr. Paine-Jackman has been practicing here for a number of years, but owing to the fact that Mr. Jackman is in business in Los Angeles, has decided to live nearer the city. The health of

Mrs. Paine is also better at Glendale. The Paine residence on West Chapman avenue has been purchased by Mrs. Lydia Gray.

A three-day convention is being held in the Nazarene Pilgrim church of Olinda, beginning last evening. Rev. Seth C. Rees spoke last evening. Today there was an all-day meeting, three services and dinner served at noon. Tomorrow afternoon and evening Paul Rees will preach. There will be three services Sunday, Paul Rees

speaking both morning and evening. Mrs. M. Bridgeman and Mr. R. E. Pendergast of San Antonio, Texas, have purchased the Anaheim Sweet Shop, next to the Fairland theater, Anaheim, from Mrs. M. Guyon.

Word has been received at Anaheim of the illness in the naval hospital at Seattle, Wash., of John Bandini, who with eleven other boys was removed from the battleship Arkansas suffering with scarlet fever. He will be in the hospital at least one month longer, when he expects to be

MAYNARD WINNER RAIN HALTS DRIVE ALTHOUGH TIME IS BEATEN FOR MEMBERS OF ASSOCIATION

Air Service Says Pearson Is First In Flying Time Only
Only Three Women Canvass Business District Today For Musical Organization

WASHINGTON, Oct. 24.—Lieutenant Belvin W. Maynard's laurels as winner of the army transcontinental air derby are secure, it was stated authoritatively at the air service department today. This is the situation as it was summarized by air service officials:

Lieutenant Maynard won the race, being the first to make the round. Lieutenant Alexander Pearson, Jr., won in actual flying time.

Captain J. O. Donaldson won in reliability.

To date Maynard stands fourth in point of actual flying time—time actually spent in the air. The four leaders' records are:

Pearson, San Francisco to New York, 21 hours, 51 minutes, 24 seconds.

Return, 26 hours, 45 minutes, 52 seconds.

Total, 48 hours, 37 minutes, 16 seconds.

Dolansdon, New York to San Francisco, 31 hours, 37 minutes, 19 seconds.

Return, 25 hours, 56 minutes, 38 seconds.

Total, 57 hours, 33 minutes, 57 seconds.

Captain L. H. Smith, San Francisco to New York, 26 hours, 13 minutes, 28 seconds.

Return, 31 hours, 37 minutes, 19 seconds.

Total, 57 hours, 50 minutes, 47 seconds.

Maynard, New York to San Francisco, 25 hours, 11 minutes, 8.5 seconds.

Return, 41 hours, 52 minutes, 32 seconds.

Total, 67 hours, 3 minutes, 40.5 seconds.

This includes 18 hours spent in replacing a motor on the return trip.

Pearson's actual flying time—hours spent in the air—is better even with the 18 hours deducted.

The rain today interfered with the canvassing work. Soliciting will continue until the entire business district is canvassed. The women who worked today met with encouragement wherever they called and their effort showed most satisfactory results.

The membership fee of \$1.50 covers yearly dues and admission to all entertainments to be placed during the season by the association. Seven numbers have already been scheduled, all high class musical entertainments, any one of which would be justified in making an admission fee of fifty cents or more.

Every business man of the city a member—this is the slogan of those who have the drive in charge, at this time. Later this will be extended to include every resident of the city. The drive now is for the business district only. The drive in the residence section will come later on.

With the organization of a strong musical association in Santa Ana, supported by the people generally, it is believed that the city will benefit materially by the introduction of first class musical events, with the city gaining a reputation for the character of such entertainments.

"We hope to have the name of at least one member of every family in Santa Ana on the roster," said Mrs. Grubb today. "We will arrange for a membership drive in the residence districts after we have completed the business section. The association will mean much to the social life of the city, and we hope to see it of sufficient strength to be an important factor in the development of music."

The next meeting of the association will be held at the Congregational church next Monday evening, when membership cards will be issued to those wanting them. They may also be had at any time from Harry Hanson at the First National Bank, or at the Summer Shop.

GOVERNMENT OF LLOYD GEORGE IS DEFEATED

(Continued from page one)

"The king doubtless will entrust him with formation of a new ministry, but from whence he will derive his support? It was the coalition itself that brought down the administration. Lloyd George will be compelled to seek fresh authority at a general election."

"This defeat alone is not sufficient cause for resignation," in the opinion of the Post, "but it indicated that commons is disappointed regarding the government. The defeat was due to the government's obstinacy in disregarding national security."

The Post declared that many war losses were due to permitting foreign pilots, particularly German pilots, attain familiarity with the British coast.

Won't Become Machine

"The rebuke went far beyond the question of admitting foreign pilots to British waters," said the Post. "It reflected the rising feeling in the country; it meant the refusal of commons to become a mere machine in registering the cabinet's decrees."

"It was the healthiest sign of vitality parliament had shown in years. The session will test the laborites' value and sincerity. They must prove their worth if they wish to be entrusted with the government."

"Such a catastrophe so early in the session cannot fail to shake the government's position, especially since it came from friends," said the Daily News. "However, an immediate revolt undoubtedly can be ended by concessions, if the government wishes."

Arthur J. Balfour and Lord Curzon have exchanged portfolios, the former becoming lord president of the council and the latter secretary for foreign affairs.

Wanted: Japanese persimmons; highest cash price paid. Bring samples. B. C. Swishelm, 311 N. Broadway.

either discharged or come home on a furlough.

Two residents of Placentia have applied to federal authorities in Los Angeles for passports to the Dutch East Indies, where they will be engaged in oil fields. One of the men is George D. Kellogg, a tool dresser, and the other is Cleveland I. Wilkinson, a driller.

DEATHS

Services for Miss Margaret A. Talbot, aged 81 years, who passed away at her home on McClay street October 23, will be held at the Mills & Winbigler Mission Funeral Home, tomorrow, (Saturday, Oct. 25) at 2:30. She was a sister-in-law of Prescott Allen and an aunt of Miss Margaret Allen, with whom she had made her home.

FOWBLES—In this city, October 23, 1919, Walter Fowbles, aged 34 years.

He was a chauffeur in the employ of the Fox Studios of Hollywood and his death was the result of an automobile accident which occurred last evening on the Newport Road. Remains at Mills & Winbigler's Mission Funeral Home. Notice of funeral later.

HOLSTON—In Garden Grove, Calif., at the home of Mrs. H. W. Lee, Oct. 24, 1919, Mrs. Letitia L. Holston, aged 80 years.

Funeral services will be held Saturday, October 25, at 3 p. m. from Smith & Tutthill's chapel. Interment will be in Alexandria, Indiana.

LENOIR IS EXECUTED ON TREASON CHARGE

PARIS, Oct. 24.—Pierre Lenoir, implicated in the Bolo Pasha and Joseph Caillaux treason cases, was executed this morning. Because of partial paralysis he was permitted to sit down while the rifle squad fired. Three reporters who secretly made their way into the enclosure to witness the execution were arrested.

COMMERCIAL AIRPLANE ATTRACTS ATTENTION

SACRAMENTO, Cal., Oct. 24.—Attention of the state corporation department has been caught by the utilization of the airplane for commercial purposes.

"Since the end of the war," says Commissioner Bellows in a statement issued today, "noticeable effort is being made to use the airplane for commercial purposes. A number of companies have been organized with this end in view, and some of them have received permission to sell stock."

Bellows announced the Pathfinder Aerial Transportation Company has been permitted to sell 417 shares of stock valued at \$10,000. It will buy its first plane with this amount and institute passenger service between Los Angeles and San Francisco, touching at some way points.

The company was organized by V. H. Brazil, former army aviator.

THE WONDER WASHER

It is a wonder Washer.

The women of the world have worn themselves out—have become broken and bent and wrinkled with age for centuries through the seeming necessity of the slavish work of wash day.

And while there has been improvement and progress and production of labor saving devices in almost every other direction, the antiquated wash tub with its steaming drudgery and the patience of woman have remained with us.

It is time to have an end of this.

The Wonder Washer does it.

LET ELECTRICITY DO THE WORK OF WASH DAY

WASH-DAY

It means practically the same to the housewives of enlightened America as it did to the daughters in Solomon's day.

Rub and scrub—the self-same thing.

You light your house with electricity instead of a candle—ride in an automobile instead of an oxcart—and you chop fish from the five oceans into the same salad—everywhere its improvement—but still you use the same old rub and scrub in washing.

Don't you think you have a right to keep pace with the times?

Don't you think time enough has elapsed to offer you your freedom?

WHY I LIKE IT

It runs easy.
It is noiseless.
It has ball-bearings.
It has no lost motion.
It is the most durable.
It is free from oil and grease.
It is light, weighs but 28 pounds.

It can be used on a bench wringer.

It will not dry up and go to staves.

It has high moulding to prevent all sloop.

It can be set on the stove and heat water in it.

It has the largest diameter of agitator, 14 inches.

It applies Suction for the first time by a rotary motion.

It will wash the dirtiest places faster, if you put them in the loops.

It will not swell up and burst hoops or get so heavy you can't lift it.

The lunch
I like just
before
bedtime—
says Bobby

FEDERATION OF FARM BUREAUS IS FORMED

Marketing Committee Will Work to Reduce High Living Cost

BERKELEY, Oct. 24.—Steps expected to lower the prices of farm products of the state were taken at a meeting of representatives of 25,000 farmers of California, held in Agricultural Hall in the University of California, yesterday, with Dr. D. R. Walker of Glenn county presiding. The meeting resulted in the formation of a California farm Bureau Federation, with Dr. Walker as president, which will seek to control and to regulate all farm problems of the state. Thirty out of thirty-five county farm bureaus are members. A marketing committee to consider ways and means whereby products may be brought from the farm direct to the consumer without the big overhead expenses for handling such foodstuffs, was appointed to begin immediate investigation.

The new organization is designed to further co-operation between counties in such matters as rabbit drives and campaigns against orchard scale and other farm pests, holding cholera and other stock diseases, in addition to subjects of more general interest. J. K. Macomber of Tulare was elected vice president, but a permanent secretary will not be chosen until later in the year. Prof. B. H. Crocherson of the agricultural extension bureau of the university performing the duties temporarily.

Heavy Overhead Charge

According to Dr. Walker, in presenting the problem before the conference, the consumer pays three times as much at the present time for farm products as is given the farmer for his output. Such a big discrepancy should not exist, Dr. Walker declared. "The farmer is not antagonistic to the public or to the middleman, but in many cases he is not receiving enough to pay his bare expenses, despite the fact that when the goods reach the market for retail consumption, the price is at least three times bigger than what the grower receives," he declared.

Committees were also appointed to consider other problems directly affecting the farmers of the state, and steps were taken for the betterment of conditions, not only for the agriculturists themselves, but for their families. An increased educational system with broader facilities for the sons and daughters of California farmers was also provided for in an educational committee, named at yesterday's session.

Better Farm Facilities

Several hundred delegates, representing farm bureaus in all parts of the state, gathered at the university for a discussion of the problems directly affecting more than 25,000 growers. This representation is declared to be a majority of the state agriculturists.

According to Dr. Walker, the purpose of the formation of the farm bureau federation is prompted primarily for the necessity of a central body to consider problems directly affecting the farm.

"We plan no sensational program of immediate price control," he declared. "That prices should be regulated we are certain, but steps to remedy this evil will be taken only after a complete investigation of conditions. The farmer of the state, as well as his family, is entitled to not only better living conditions, but to better educational facilities. It is right and just that he should have these, and it is primarily for this purpose that we have organized."

Favorite Fall Fashions

In Silks

Plushes

Suitings

Coatings

The soft shimmer of lovely Satins, or the striking beauty of plaids in the rich fall tones, or the tempting novelty of the new brocades, all combine to make our Silk Department especially interesting at this time.

Fashion never favored lovelier weaves in silks and plushes than these that are offered for the present season. We are proud of our showing of these choice fabrics and invite you to come and see whether you buy, or not.

The complete line of the famous Pel-grem & Myers silks are represented in Satin Etoile, Satin Francaise, Satin DeLuxe, Pussy Willows and Satin Charmeuse. Colors range in beautiful shades of Bergundy, taupe, teal duck, old rose, beet root, grape, Copenhagen, French blue and black and white.

Plushes are proving more popular than ever and we have a fine showing for dresses, suits, coats and stoles. Plush nutria, kerami, Hudson seal, varimole, silk chiffon and pico are offered in shades of tan, mole, taupe, grey, black and plain and mottled weaves.

Included in the fabrics that we are showing to be used in the making of the fall and winter suit or coats are weaves that have been fashioned into some of the highest prices and most exclusive garments by famous designers. Wonderful colorings and qualities are represented in these fabrics.

The fall coatings include Silvertone, Zibiline, Sport Velour, Silver Tip Chinchilla and Kumfy Kloth.

Especially handsome suitings are shown in Serges, Frams, Epingle, Tricotine, Gabardine, Melrose, Broadcloth and Disarde Cloth.

Color range for suitings and coatings come in shades of black, navy, taupe, African, myrtle, beet root, Burgundy and teal duck.

The most charming new all-silk ribbons are here in all widths. Shown in the most fascinating patterns or plain shades. Some very late arrivals are attractive patterns in gross grain for vestings and handbags, and flowered ribbons and brocaded satins for camisoles. Whatever your needs or desires may be, you will find a very complete selection here at prices remarkably low.

TELLS DYSPEPTICS WHAT TO EAT

Avoid Indigestion, Sour Acid Stomach, Heartburn, Gas on Stomach, Etc.

Indigestion and practically all forms of stomach trouble, say medical authorities, are due nine times out of ten to an excess of hydrochloric acid in the stomach. Chronic "acid stomach" is exceedingly dangerous and sufferers should do either one of two things.

Either they can go on a limited and often disagreeable diet, avoiding foods that disagree with them, that irritate the stomach and lead to excess acid secretion or they can eat as they please in reason and make it a practice to counteract the effect of the harmful acid and prevent the formation of gas, sourness or premature fermentation by the use of a little Bismarck Magnesia at their meals.

There is probably no better, safer or more reliable stomach antacid than Bismarck Magnesia and it is widely used for this purpose. It has no direct action on the stomach and is not a digestant. But a teaspoonful of the powder or a couple of five grain tablets taken in a little water with the food will neutralize the excess acidity which may be present and prevent its further formation. This removes the whole cause of the trouble and the meal digests naturally and healthfully without need of peptic pills or artificial digestants.

Get a few ounces of Bismarck Magnesia from any reliable druggist. Ask for either powder or tablets. It never comes as a liquid, milk or citrate and in the Bismarck form is not a laxative. Try this plan and eat what you want at your next meal and see if this isn't the best advice you ever had on "what to eat."

FAMILY GATHERING ENJOYED AT HARPER

HARPER, Oct. 24.—A family reunion was enjoyed Thursday by the W. S. Williamson family. Mr. and Mrs. Williamson, who have lived at Harper for about three years, have three sons, the eldest, Harry H., having been in army service twenty-three years and is now eligible for retirement at \$100 per month. Scott, the second son, has been connected with the Los Angeles Southern California Music Company for ten or more years as a leading salesman. Chester, the youngest son, returned from overseas a few months ago, being a sergeant in the Rainbow Division. Mrs. C. A. Anderson, who, with her family, lives in Newport Heights, completes the list of their children. They all, including the wives of Harry and Scott, swooped in on their parents about bedtime on Wednesday evening. The jubilee began right off and autos were cranked up and all went over to the home of Clarence Anderson, where they celebrated until after midnight and then sought rest until morning. "Daddy" Williamson was up early and went to Neighbor Lowery and evaded the bulldog long enough to arouse Mr. Lowrey, who came out and snugged his chick in coop fifteen pounds of friers, for the day's feast. It was a very enjoyable day as it was the first meeting of the kind the family has had in five years.

Harry, as chief pharmacist in the medical corps, made thirteen round trips between Europe and America on the hospital transport Susquehanna taking troops to France and bringing back sick and wounded. Chester engaged in eight campaigns during which he was 257 days on the firing lines.

FRENCH SAY AMERICAN TOBACCO HAS NO KICK

PARIS, Oct. 24.—Frenchmen find American cigarettes and tobacco "too light, too sweet, with no taste," too much like dust and they don't like the odor.

One Frenchman who smokes nothing but the national "cigarette" calls American smoking mixtures "ersatz" and prefers to go without tobacco rather than smoke "perfumed ladies' cigarettes."

Yet when the American troops arrived in France there was a great rush of French people for American cigarettes.

GRASSHOPPERS EATEN BY DUCKS AND GEESE

BISMARCK, N. D., Oct. 24.—The invasion of North Dakota by grasshoppers has brought a counter-invasion of wild ducks and geese, according to the reports of the game wardens from over the state. In virtually every section of the state where there is water thousands of ducks and geese are to be found weeks earlier than usual feeding on grasshoppers. Deer are more plentiful than in former years along the Missouri bottom according to reports.

The charge that civil authorities are misusing their power against strikers is met by the steel companies by introducing witnesses who say they are satisfied with working conditions. Does the contentment of the few give civil authorities the right to abuse the many?

IN TWO MONTHS HE GAINS 29 POUNDS

Walter Krel Tells of Big Change Brought About by Tanlac.

"I believe in giving everything its due, and I want to say right now that I just can't praise Tanlac too highly for what it has done for me," said Walter Krel, while discussing the medicine recently. Mr. Krel has charge of one of the departments of the Goldwyn Motion Picture studios in Culver City, and lives at Palms, Los Angeles, Calif. Mr. Krel's remarkable experience with Tanlac is of interest throughout California.

"For more than a year before I tried Tanlac," he explained, "I had an awful time with my stomach. I could not eat anything without bloating all up with gas and feeling miserable. I got so I could not eat anything, scarcely, and as a result I became very nervous and lost weight and strength rapidly. I dropped down from one hundred and forty-five pounds to one hundred and twenty-six pounds, and was in such a bad fix that I could hardly keep going. I was under treatment several times and tried everything anyone would tell me about, but kept getting worse until I was almost completely down and out."

"I kept reading so much about Tanlac that I finally concluded to get a bottle, and that was about my luckiest day, for I started to improve almost at once. I have used seven bottles now and the benefits I have received cannot be measured in dollars and cents. I can eat just anything I want and enjoy it and am not the least bit nervous. I have gained in weight steadily and am now weighing one hundred and fifty-five pounds. This gives me an actual gain of twenty-nine pounds in a little more than two months and makes me ten pounds heavier than I ever was. Giving an endorsement for a medicine is something new for me, but I am certainly very glad to do so in this case, for Tanlac is one medicine everyone should know about. Such a medicine deserves the highest praise and it's a real pleasure for me to make this statement."

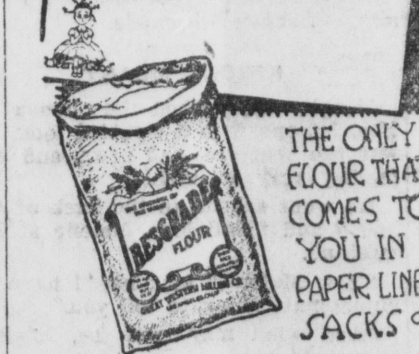

Tanlac is sold in Santa Ana by Rowley Drug Co., in Fullerton by G. W. Finch, in La Habra by R. H. Hilbert, in Huntington Beach by Rigdon's Pharmacy, in Orange by Dittmer's Mission Pharmacy, in Placentia by A. J. Robinson, in Tustin by Tustin Drug Co., in Brea by Brea Pharmacy, in Buena Park by Regal Drug Co., in Garden Grove by O. H. Anderson and in Laguna Beach by Laguna Beach Pharmacy.—Adv.

SLAVE RUNNERS' VAULT DISCOVERED ON FARM

OXNARD, Pa., Oct. 24.—W. T. Wright, who recently purchased the Ironside Farm in Lower Oxford, has made a discovery which adds to the thrilling chapter of America's slave-running days. In making repairs to the old Ironside mansion workmen uncovered the kitchen floor and found a secret vault built of solid masonry. It is believed the vault was used as a station on the underground railroad which was used by slaves in coming through here from Christiana. The walls of the vault are two feet thick. Nails used in its construction are hand-wrought, and the joists and rafters are of oak. A hand forged razor was found atop one of the walls.

It's doughnuts and more doughnuts that the family wants if you use "Besgrade" Flour when you make them.

SOLD EXCLUSIVELY BY GEORGE A. EDGAR, 114 E. 4th St. F. C. BLAUER, 208 W. 4th St. D. C. MCBURNEY, 720 E. 2nd St. A. C. NEWELL, 302 E. 4th St. E. E. NEFF, 522 S. Flower St. F. S. DONALDSON, 1002 S. Main St.

DISABLED YANKS TO GET ACTION QUICKLY

Applications For Vocational Training Considered Within 24 Hours

WASHINGTON, October 24.—Former soldiers, sailors and marines who have incurred disabilities in line of duty which have necessitated major amputations, such as the loss of a hand or foot, both hands or both feet, or loss of sight of one or both eyes, and who are desirous of taking vocational training, can now have their applications acted on within 24 hours, according to a bulletin issued today by the Office of the Assistant to the Secretary of War; Service and Information Branch. The bulletin is as follows:

"Under a new policy just put in effect by the Federal Board for Vocational Education, men who have become disabled in the service of the Army or Navy, no matter what the extent or nature of such disability, are enabled to have their applications for training acted upon much more quickly than formerly. Heretofore all applications for training were referred from the District Vocational Office to the Federal Board at Washington for action, thereby entailing much delay and working needless hardships on the men making the applications.

Cover Whole Country.

"Under the new system all of these applications are acted upon by traveling field representatives who have been sent out from Washington. These representatives cover the entire country and visit each vocational board at least once every two weeks, at which time all cases ready in the District Office are cleared up. The only cases such traveling representatives must refer to Washington are those involving courses for a period longer than two years. On these the Washington office will give a decision within ten days.

"Men who have had major amputations, such as the loss of a hand or foot, or both hands or both feet, or loss of sight of one or both eyes, come under a special class. Their applications will be acted on by the District Vocational Officer, who has authority to approve courses up to and including four years in length without referring them to Washington. Cases of this character should be cleared up within 24 hours.

Tuberculosis Cases.

"The Federal Board of Vocational Education has also adopted a definite policy regarding tuberculosis cases. Any arrested case of tuberculosis will

be considered as 25 per cent disabled for a period of two years from date of arrest, and the Bureau of War Risk Insurance has agreed that they will consider arrested cases as 25 per cent disabled for the first six months and 10 per cent for the following eighteen. This decision enables the giving of the necessary hospital and medical treatment to men in this class."

This bulletin has been issued in accordance with advice received by the War Department from the Federal Board.

PICNIC PARTY ROUTED BY BEES AND HORNETS

ROCHESTER, N.Y., Oct. 24.—A gay picnic party which had been arranged by young women here had to be called off and probably no second attempt will be made to hold it.

The girls motored out to Mrs. Burke's farm at Honeye Falls and prepared for the picnic. All of the hampers containing a wonderful picnic lunch were carried to a nice looking grove. One of the girls dropped a basket and fled, shouting "Bees!" All the others fled, but none was as speedy as the bees and hornets, for nests of both had been stepped on. Shouting of the girls aroused a neighbor, who called a sheriff.

With ten deputies Sheriff Ralph Burton hurried to the scene in an automobile. The sheriff's party was chased away while Mrs. Burke aided in the application of lotion.

Home-made Candles at home-made prices. Nougats, fudges, creams, prittles, Lion Kandy Kitchen, 211 West Fourth St.

NAME 'BAYER' MEANS ASPIRIN IS GENUINE

For Pain, Colds, Headache, Toothache, Neuralgia, Lumbago, Rheumatism

You want relief—quickly and safely! Then insist on "Bayer Tablets of Aspirin," stamped with the "Bayer Cross."

The name "Bayer" means you are getting genuine Aspirin prescribed by physicians for over eighteen years, and proved safe by millions of people. For a few cents you can get a handy tin box of genuine "Bayer Tablets of Aspirin" containing twelve tablets. Druggists also sell larger "Bayer" packages. Aspirin is the trade mark of Bayer Manufacture of Monocet-icacidester of Salicylicacid.—Adv.

SNAKE IN CHURCH CAUSE OF RUMORS

PRATT, Kan., Oct. 24.—There came very near being a scandal in the Wendall church congregation here, and as it is there are many quiet rumors floating about concerning certain members of the congregation. It came about this way:

The minister was about to begin his sermon when he saw a huge blacksnake gliding in through the front door. He jumped on a chair and members of the congregation, sighting the reptile, followed suit. Late comers killed the snake. But the members of the congregation take it that the snake was a sign of ill omen and that some one in the congregation at the time has not been following closely the paths of righteousness, and that the snake, which first brought about the fall of man, was sent as a warning to reform and repent.

SACRAMENTO BOUTS

SACRAMENTO, Oct. 24.—Kid Leo, San Francisco, meets Frank Denny, Oakland, in the Hoffman Club card tonight. Young Joe Gans of Oakland meets Chief Abernathy of San Francisco and Al Walker of San Francisco fights Baby Blue of Marysville in the semi-windup.

STOCKTON "RECORD"

To travel hopefully, always, but never to arrive, is the laudable ambition of the Stockton Record, which has just installed a forty-eight page sextuple Hoe press.

The Record is one of the notable achievements in California journalism, and is to be congratulated upon its success. But more to be congratulated are Stockton and the upper San Joaquin valley, for which the Record is a tower of strength and a fountain of inspiration and resource.

The publisher and founder of the Record, Irving Martin, has written an enthralling and inspiring story of the Record's career, in the prelude of which he says:

"It is better to travel hopefully than to arrive," said Robert Louis Stevenson, and he was right—entirely right.

Now, in the 25th year of its existence, the Stockton Record seems to have been engaged during all this quarter of a century in traveling hopefully. While you are traveling hopefully, your companions are Hope, Ambition, Expectation and wonderfully stimulating and sustaining companions they are. There is the joy of doing—the spur of accomplishment. May the Record never arrive, but may it ever travel hopefully, helpfully, good humoredly and kindly. While striving, itself, to push onward, may it ever feel inclined to lend a helping hand to others, to aid any worthy cause, and to find time to drop a word of cheer and encouragement to others who may have stumbled, or who may have become foot-sore and weary on the journey."

Surely this is a creed worthy of any newspaper or any man.

HOOVER'S VIEW

No man in America today has been in closer touch with European conditions for years past than has Herbert Hoover, and when he declares that the League of Nations covenant ought to be adopted at once he has back of his judgment intimate knowledge and understanding of world affairs. Said he:

"If the league is to break down, we must at once prepare to fight. If we believe we can see our neighbors return to a thirty years' war through the breakdown of this treaty and we still maintain our progress, it is the egotism of insanity. I am convinced that if we attempt now to revise the treaty, we shall tread a road through European chaos."

NATIONAL BUDGET

Light begins to break over the chaos of national finance. The special committee appointed by the House of Representatives several months ago has prepared a budget bill creating a bureau of the budget which will handle all governmental finances.

This central bureau will be under the President, but independent of any department. All needs for appropriations from all departments will be referred to this bureau, and the duplication and cross-hauling will disappear.

Heretofore, a department which needed a certain sum always had to ask for much more, because it knew the appropriations would be cut down before it got the money. Some haphazard committee which handled the matter would be more intent upon a reputation for economy at home than upon furthering a survey of infant mortality, for example, and there was no way of telling whether an appropriation for "improving" Tinker's Creek might not seem more reasonable to a weather-turned eye than one for some more vital matter further from the locality or imagination of the constituency.

Hereafter, if the bill passes, the bureau will prepare a budget for the ensuing year, together with an estimate of moneys to be taken in by the government. One committee of thirty-five members in the house will pass on all appropriations. The scattering and confusion will give place to some semblance of order and system.

No business of any size allows its finances to run themselves. No enlightened housewife runs her little kitchen affairs without some sort of balanced apportionment among her expenditures, made out in relation to her income. That the government, with its enormous business so long should have allowed its affairs to run in a tangled maze is one of those mysteries of popular neglect and practical politics which can only occur in an easy-going and prosperous democracy.

Now that war has tightened the

purse-strings, public attention should be so concentrated upon this important matter that nothing will be allowed to interfere with the march of the budgeting plans to strict and orderly fulfillment.

NEW COLLEGE COURSES

Princeton University proposes to establish a chair of diplomacy in response to a new and specialized demand which arises from America's new position of dignity and power in world affairs. Bryn Mawr is to establish a chair of politics in preparation for the day when women assume full citizenship with all its obligations as well as its privileges.

With or without a League of Nations, the United States will have to remain in its present close relation to the rest of the world. The time has passed when any nation can live to itself alone and ignore its neighbors. It is fitting that the young men and women of the country should be learning now how to conduct their country's business with other lands with wisdom, courtesy and honesty.

The time is coming, too, when women must be prepared to hold and administer public offices wisely and efficiently. The full duty of a good citizen does not end with the franchise.

Certainly both these innovations in the academic curriculum come in response to actual needs of the time. They will undoubtedly be followed soon by similar courses in other institutions.

FILMING THE WEST

A motion picture expert is at work on Mount Tacoma—or, if you insist, Mt. Rainier—using the old mountain as the central figure in an educational film. A whole series of beauty spots of the great West are to be photographed in this way and shown not only on the Pacific Coast, but all over the country and even in other lands.

There is to be a thin thread of story woven about this mountain. An old hermit will appear for the purpose of telling many of the Indian legends of the mountain's history.

This is a fine project, and one that has many possibilities aside from the original one of advertising wonderful scenery and encouraging tourist travel. To weave about such a bit of scenic beauty, both the legendary and actual history of the place adds an educational interest to the picturesque. The whole thing is suggestive of attractive pictures which might be made in many beautiful and historical spots in other parts of the country. Could there be a more delightful way to supplement textbook teaching of geography and history?

Amen, Governor!

Wm. D. Stephens

As King Albert and his armies stood in the gateway of Belgium and held back the destroying hordes of Huns, so must we stand in the gateway to America and see to it that henceforth no man enters this God-favored land of ours who advocates anarchy or Bolshevism. We must legislate so that every man, before he is admitted to citizenship in America, shall speak and read the language of America. We must also see that every man claiming citizenship who speaks or acts against our flag, shall be promptly and properly punished. And we must insist that every alien who assails America shall promptly be put out of America. There is no place in America for anarchy, or I. W. W.-ism, or Bolshevism, or any other traitorous ism.

A Merry Christmas

Pasadena Star-News

There will be Christmas giving, this year, from present indications, on a scale exceeding anything of the kind ever before known. For five years, on account of the great war, Americans have stinted themselves, more or less, in holiday buying and giving. This will be the first Christmas since hostilities ceased before which the people have had time and opportunity to buy generously. The armistice came so near to Christmas last year and there was so much confusion, the holiday period was not what it will be this year for volume of buying and giving and for downright pleasure among the masses of the people.

Caustic Comment

The new Italian Foreign Minister is Tommaso Tittoni. Abbreviation would make him a bird.—Minneapolis Journal.

Why not make Mexico and Haiti mandatories for each other and let nature take its course?—New York World.

Nowadays there is nothing brewing but trouble.—Philadelphia Evening Ledger.

Speaking of the death penalty, is it possible to make the Kaiser any dearer than he is?—Philadelphia Evening Ledger.

When we finally bury the hatchet with the Germans it will be just as well to note carefully where it is buried.—New York World.

We don't care much what happens to the Government of Germany, just so it doesn't return to private ownership.—Wichita Beacon.

No man knows that the League will be a success, but every man who made the acquaintance of cooties will be glad to give it a trial.—Washington Herald.

Treat 'em Rough, Old Man

Rubbing Shoulders

(From Forbes Magazine)

To be able to rub shoulders successfully, you must be worth rubbing shoulders with.

All business, all social intercourse, is a matter of reciprocity.

In order to get, you must be able to give.

The wise man tries to avoid rubbing shoulders with a fool.

We all like to rub shoulders with any one who makes us feel better or enlightens us or "does us good" in any way—in short, with anybody who rubs us the right way.

The best way to become successful at rubbing shoulders is to become successful, to demonstrate your worth, to prove your calibre, to show that you are well worth rubbing shoulders with.

There is no trick about it.

You can tell instinctively the difference between the superficial glad-hand artist and the man who rings true through and through, the man who is what he appears to be, the man who is not wearing a sweet smile in an attempt to disguise his bitter feelings.

In making one's way in the world it is important, first, to qualify as a master of your job, and, second, to be able to get along well with other people to have a winning personality, to attract rather than repel, to rub others the right way and not the wrong way.

Worth While Verses

THE MARKET PLACES

Proud ships come in from Bristol Port,
Gray boats from Bengal Bay,
From Salvador and Singapore,
Calcutta and Calais—
From war-striven murky harbors,
Along tormented main
Where, as the darkness thickens
Adown the windy lanes,
Sounds yet the phantom battle,
The boom of gully gun—
Through sea-doors facing Westward,
To markets in the sun,
The ships come in.

Now into Puget waters,
On tides of flying spray.
Where morning lightly spatters
The rhododendron way,
And hills are cedar-scented.
And first crowd wet and high
Beneath the snow-fields gleaming
Against a summer sky—
Or down the painted shoreline
Where spangled salmon run,
And up a wide, wide river
To mist-born Oregon—
Or where the trades are listing
Upon a golden swell
And ocean conches echo
The sweet-toned mission bell.

So through the Western sea-doors,
Astride a spanking breeze,
Where fellow rovers gather
About the thronging quays,
For wealth of ridge and valley
To fill the emptied hold:
Yellow wealth of shining wheat,
Stores of citrus gold,
Garnered loaves and fishes,
Gifts of range and wood,
Mine and sea and sunset land
Where all that is good,
The ships come in!

—E. E. Sanders in November SUNSET.

OBSERVATIONS

"Everything has been said that can be said on every vital subject," declares Colonel House. Tell it to the senate.

We have no concrete, irrefutable evidence that Germany is conducting a Baltic campaign except the fact that she denies it.

America can best help the backward peoples of the earth by keeping herself free of their quaint theories and fatal isms.

The reason the Japanese can't understand our policy in Siberia is because they can't see where we expect to get our profit.

And if everybody in America would knuckle down to work tomorrow and keep his mouth shut for ten days, this epidemic of hysteria would be over.

After our nerves are frazzled by studying new theories, perhaps we shall have sense enough to get back to the wholesome sanity of pre-war days.

GROANS AND GRINS

AND NEVER MISSES

Lady—"What is your aim in life, my good woman?"
Good Woman—"Me 'usband, gen'rally."—London Chronicle.

KINDLY MEANT

Murphy approached the house of Mrs. Malone with a troubled look. He was the bearer of bad news, and was feeling very miserable.

He went around to the back of the house and found Mrs. Malone at her wash tub.

"Mrs. Malone," said he, "I have an unfortunate thing to tell you."

"And what may that be, Joseph Murphy?"

"Your good man, Mrs. Malone, has met with an accident."

"An accident? What kind of accident?"

"Mrs. Malone, he was overcome by the heat at the foundry, this morning."

"And is he getting over it?"

"Well, ma'am, I don't think so. He fell into the furnace."—Tit Bits.

THE CHEERFUL CHERUB

Oh, how I love to sit
and think!
Strange fancies I can
always find
To entertain me by
the hour—
It's surely grand to
have a mind.

Price of New Duds
Makes Century
Look Quite Ill

By MARGARET ROHE

(Written for the United Press)

I care not if potatoes cost

A figure fiercely high

That butter, beef and other foods

Most folks can scarcely buy

For I must diet anyway.

With me the vital issue

Is rolling, ribbing, starving off

Excessive fatty tissue

But when it comes to things to wear

Believe me then I sure should care

It's got me worried, goodness knows,

The simply awful price of clothes!

NEW YORK, Oct. 24.—"My dear, that coat is perfect on you," "Dearie, that hat was just made for your eyes," "My dear, this suit is just your style"—thus do the less haughty sales ladies affectionately foist their wares on guileless shoppers.

Little Harold, that precocious 1919 model child, on an enforced shopping tour with his maternal parent, lost not one of these endearing appellations.

"Mother," he demanded sapiently, "do they all dear you because everything's dear now?"

And thus you see the high cost of clothing stands convicted out of the mouths of babes.

Positively it would be tragic if it were not so ridiculous—the price tags dangling from this season's coats and frocks and suits.

Do you remember in the good old days how a fifty-dollar bill was considered quite some outlay and the gown or suit it purchased was of excellent material, line and style? What fifty dollars will buy today looks like something le chat emportait chez lui.

Sixty-nine, seventy-five and eighty dollars are average prices for conservative little dresses of serge, tricotine, gabardine, satin, taffeta, georgette or velveteen. Anything the least out of the ordinary, exclusive or French immediately leaps into the hundred class and even trotteurs of cloth, be they the least bit original and distinctive, range from \$110 to \$125 and \$150 with the easy speed of an express elevator going up.

As for suits, without exaggeration, even in shoddy materials and cheapest grade frills, there are no fur-trimmed suits under a hundred dollars. When they are of peach-bloom, duveline and others of the exquisite new materials with beaver, mole, nutria or squirrel trimmings range from \$250 to \$450 with the greatest of ease and abandon.

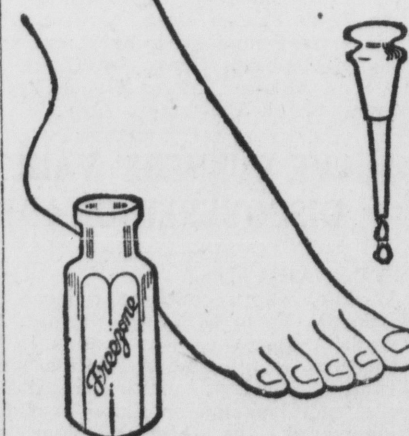

You can pick out a sort of rough and ready sport coat for around \$75 or \$80, but let anything in evora, duvelyn or casimerette swathe you round your figure and even though it isn't of the fur-bearing species in round figures it will bring around one hundred and fifty round dollars. The beautiful befurzed models of newest rich weaves belong to their price tag and with shoes soaring to fifteen and twenty dollars. What's worse we can't even afford to kick about it for fear of wearing out our precious shoe leather.

The strange part of it all is that never have fabrics and furs and fad-de-lols been more lavishly and extravagantly exquisite than right this minute. The wonderful Lyons velvets brocaded in metal, the metallic tussies and brocades, the velvets, duvelyns and peltrys smack of the glories of the renaissance the same time they take a wallop at your bank roll.

Somehow or other I can't quite see how the league of nations can successfully put over its equity for all nations as long as the high cost of clothing means so little to the change purse of a Hottentot and so much to the pocketbook of an American.

Lift off Corns!

Doesn't hurt a bit and Freezone costs only a few cents.

With your fingers! You can lift off any hard corn, soft corn, or corn between the toes, and the hard skin cal-luses from bottom of feet.

A tiny bottle of "Freezone" costs little at any drug store; apply a few drops upon the corn or callus. Instantly it stops hurting, then shortly you lift that bothersome corn or callus right off, root and all, without one bit of pain or soreness. Truly! No humbug!

The Baby

How sweet and how innocent. What a lot of cheer he carries into your home with his chubby little hands. What a picture of joy and health. There is nothing but gladness in his sparkling eyes—what a pity that you cannot always keep him thus. But life is uncertain at best. Babies grow up and sometimes they are taken from us.

The best that we can do is to preserve the baby's personality by means of pictures. In years to come, in spite of any misfortunes that may come to your baby, you'll find much joy in the possession of these baby pictures. You ought to have a picture made once each year beginning NOW.

If the pictures are made in this studio they will be as near perfect as skill and perfect attention can make them.

TAKES BODY OF HER CHILD TO DREAM FARM

Los Angeles Mother Drives Mule Team to Palo Verde Valley

BLYTHE, Cal., Oct. 24.—Down where the Colorado river runs yellow with mud a few miles from Palo Verde, a gray motord of stone today bore witness that the spirit of the women of forty-nine still lives in California.

And it was death that made that spirit live.

Months ago J. M. McDonough bought a little tract of land on the banks of the Colorado and went to work in the Palo Verde valley, to get the money which would build a home. Mrs. McDonough and 5-year-old Helen remained near Los Angeles, to do their share toward the dream's realization.

A week ago death took little Helen. It meant lost wages if McDonough must come to Los Angeles. And besides, mother and father had planned a little plot on a knoll at one corner of the farm as the place where the McDonough family should sleep through eternity. Little had they thought that Helen would be the first to sleep there.

So it was that Mrs. McDonough decided she must take the body of her little girl to her dream-farm.

In the dead of night a week ago a snow-white casket was placed beside a sorrowing but courageous mother on the seat of a mule-drawn "buck-board" and two mules started drawing this lonely cortege towards the desert beyond which lies Palo Verde.

Two days and two nights the mother lashed onward the stolid mules with no rest for herself and but little for them. Alone she crossed the white alkali wastes and last Tuesday as morning dawned, drove alone into Blythe.

Twelve hours later a still brave mother and a sorrowing father murmured a prayer as yellow clouds covered the grave of their loved one—tiny grave, alone on the banks of the muddy Colorado.

A little bunch of wild flowers melted and dried. Today a monument of undying stone awaited the time when the farm house would be built, the water would run through the McDonough fields and green grass would spring up over Helen's grave as nature's everlasting monument to women's strength and mothers' love.

WALLACE RETIRES FROM MUSIC STORE

A business transaction of interest to many residents of Santa Ana, Orange and vicinity effected today was the sale by Jack Wallace of his interest in the music store at 111 West Fourth street to his partner, B. J. Chandler, who will hereafter conduct the business. Previous to entering into partnership more than three years ago, Wallace was in the music business at Orange for more than two years, and previous to that was associated with the Shafter Music House here for four years.

Wallace expects to take a vacation for a few days and then re-enter business in Santa Ana, which he believes is the best town in the country. Wallace is now considering several attractive offers, and while not definitely decided upon his future course, is leaning strongly to the real estate "game" as a line wherein he can do business with profit both to himself and the community.

THAT DID IT

In spite of her husband's angry snorts and the warning why he rustled his newspaper, the old lady would persist in chattering blithely to him as they sat on the promenade. He wanted so badly to read the news, poor old chap.

"Generally speaking," she began again presently.

"Then he woke up."

"Are what?" asked the puzzled dame.

"Generally speaking."

Then silence enfolded them like a sea of mist, and he read his paper.—Answers.

CHAMBER VOTES FOR OPEN SHOP AT SAN PEDRO

Business Men Take Action On Resolution Offered By Merchant

SAN PEDRO, Oct. 24.—The last citadel of labor unionism in Southern California fell yesterday when members of the San Pedro Chamber of Commerce by an overwhelming vote declared in favor of the open shop.

The declaration of independence from union rule in the harbor district was taken at the largest regular meeting in the history of the organization. It was held at the San Pedro cafeteria, which has lately been placed on the "unfair" list by the labor organization. In spite of the boycott placed on the place and a line of union pickets on the outside to get the names of those in attendance, the dining room, which is the largest in San Pedro, was packed to capacity with leading representatives of the business, industrial and social life of the community.

Ray Mitchell, president of the chamber, presided. The resolution was presented by John M. Cannon, manager of the largest dry goods store in San Pedro. Those who spoke in favor of it included leaders not only of the industrial concerns but also of the professions and clergy. There were many women in attendance.

HORSE WANDERS BACK AFTER SEVERAL YEARS

COLUMBUS, Ind., Oct. 24.—The night man at a local garage here was astonished the other night to see a large gray horse saunter in about midnight, make straight for a watering trough in the garage, drink and then select a secluded corner and prepare to settle down for the rest of the night. After a second glance at the visitor, the garage employee saw it was Fox, a driving horse that had for many years been the property of the garage owner when the building was a livery stable. The animal had been sold several years ago, but wandered back to its old home and tried to find the place where its stall stood.

A Nutritious Diet for All Ages Quick Lunch at Home or Office Avoid Imitations and Substitutes

Fresh Fruit Desserts—2c

Jiffy-Jell desserts, rich and fruity, cost but 2 cents per serving.

Each package contains a vial of fruit essence, made from condensed fruit juice.

Add boiling water, then this flavor, and you have a fresh-fruit dainty.

Compare Jiffy-Jell with the old-style quick gelatine desserts. You will find it five times better, yet it costs no more.

Millions now enjoy it.

THE HUMMINGBIRD

"Oh, hummingbird, hummingbird, brilliant and gay,
You dart 'mongst the flowers this bright summer's day,
All dressed in a coat like Joseph's of old,
With flashings of ruby and emerald and gold!
And handsome marauder—you steal from the bees
The blossoms' sweet nectar—then away to the trees!
What is your mission, what good do you do,
Idling and humming the whole day through?"

"What good do I do? An idler, you say?"

Nay, do not misjudge me, but hear me, I pray!
God in His wisdom has given to me
The right to be cheerful and happy and free!
He gave me this coat of glorious hue
To help brighten the world for humans like you.
And he gave me this bill with its thread-like tongue
To help the work of the bees along.

"For roaming and humming through blossoming bowers,
And sipping the honey from deep-throated flowers,
Is not all I do through each golden hour—
I carry the pollen from flower to flower;
And the nectar you say I steal from the bees,
I take to my babes in their nest in the trees.
Thus I do God's will in my own tiny way
From earliest dawn till close of the day!"

—Louise Gambert.

Mistake in Ebell Program

Through a misunderstanding, last year's Ebell program was printed in last evening's Register and while it was a most excellent one it will not be repeated this year, the programs for this season not yet having been completed.

The next meeting will be held on Monday next, October 27, at Elks' hall, Miss Freida Peycke of Los Angeles to give the program. She appeared here some years ago and highly pleased her audience.

Halloween Party

Spooks, goblins, black cats and jack-o'-lanterns greeted the employees of Leipsics' department store last evening, when Miss Laura Mennefe was hostess to them at her home on West First street.

It is hard to think of a more festive time for entertaining than Halloween and entering heartily into the spirit of the occasion, the guests enjoyed a lively evening of games and guessing contests. Miss Bertha Crawford received the prize of a jack-o'-lantern.

Appropriate refreshments were served late in the evening to Mr. and Mrs. H. Leipsic, Mr. and Mrs. C. S. Cooke and son Jack, Mr. and Mrs. Joe Ryan, Mr. and Mrs. J. C. Clark and Misses Bertha Crawford, Erle Littlepage, Gladys Simpson, Nellie Munger, Gertrude Lander and the hostess, Miss Laura Mennefe.

Bridge Afternoon

Mrs. Cal Lester of Orange, was hostess yesterday at an afternoon of bridge, complimenting her mother, Mrs. Isabella Churchill, of San Diego and Mrs. Jesse D. Agnew of Visalia, who are her house guests.

At the close of the session at cards, prizes were awarded to Mrs. O. H. Egge, who received the first, Mrs. J. P. Hatzfeld, second, and to Mrs. Churchill, who was properly consoled for holding low score.

A wealth of yellow dahlias was

used in the decoration of the home and in carrying out the color scheme of yellow and white, the same autumn tints predominating in the nut baskets and in the light refreshments served on the individual tables.

Those who participated in the pleasant afternoon beside the honor guests and their hostess, were Mesdames J. P. Hatzfeld, George Briggs, W. L. Deimling, J. B. Roberts, O. K. Forgy, Earl Morrow, Russell Scott, O. H. Egge, Charles Kendall, Sr., Roscoe Whitted, A. W. Rutan, E. S. Gilbert, Harry Duckett, J. P. Baumgartner, and A. J. Casebeer of Los Angeles.

Past President Here

At the regular meeting of the Fraternal Brotherhood last evening, the supreme past president, Mrs. E. R. Niedig, was present and addressed the members in regard to the juvenile lodge, which she is to organize next Saturday afternoon as she has received the necessary quota.

This juvenile lodge is made up of the members' children, ranging in age from two to 16 years and is for the purpose of juvenile insurance.

Initiation was conducted and five new applications received. Guests from Ontario were welcome visitors and following the disposal of business a social hour and light refreshments were enjoyed.

Interesting Address

The McKinley P. T. A. held a meeting yesterday afternoon at the kindergarten.

Superintendent J. A. Cranston was present and gave the mothers and friends an interesting talk on the welfare of the Mexican children. Mrs. Obarr entertained with a selection of songs.

At the close of the business hour Mrs. Drake, Mrs. Penstock and Miss White gave a social tea to the many friends and mothers.

Entertained Sunday School Class.

Miss Mabel Fuerstenau entertained the J. O. C. Sunday School class of the Methodist church at her home on North Grand street with a charming party given in the form of a toy shower for the children in the orphanage at La Verne.

Conversation and fancy-work were the diversions in the early part of the evening. Later, dainty refreshments consisting of sandwiches, wafers, tea and cake were served.

Those present were Misses Cloes Jones, Ruby Welch, Kathryn Evans, Edna Ealer, Ethel Parks, Azalea Barbery, Mary Crawford, Nora Edwards, Ruth Hull, Mrs. Jerry Lyon, Mrs. Perna Barnett, and the hostess, Miss Mabel Fuerstenau.

Karnival Postponed

The Daughters of Veterans' Halloween Carnival has been postponed on account of the rain.

The next regular meeting of the Daughters will be held next Monday afternoon when further plans will be made.

For School Friend

A luncheon at James' was a pleasant courtesy extended by Mrs. J. W. Taylor to her former schoolmate and friend, Mrs. Everett Gill and daughter, Miss Elizabeth, from Kansas City, who have been visiting with her for a short time, returning today to San Diego where they will spend a part of the winter.

A large bowl of yellow chrysanthemums centered the table where covers were placed for the guests of honor, Mr. and Mrs. O. S. Russell, Los Angeles, Mrs. L. A. Myers of Whittier, Mr. and Mrs. J. W. Taylor and Miss Laura Taylor.

Bedroom Shower

Miss Irma Reinhaus was charmingly complimented Wednesday evening when Mrs. Harry Warner, assisted by her mother and sister, Mrs. W. W. Clevering and Miss Romona Clevering, was hostess at a shower in her honor.

Guests were asked for an evening of progressive games and visiting, made more pleasant by the arrangement of goldenrod in the living room and cosmos in the dining room, where the two-course collation, harmonizing with the yellow color scheme was served. The three small tables utilized were brightened with yellow handies. The pretty blue bedroom articles contained in the shower were piled high in a basket and presented to Miss Reinhaus by Master Minor Warner.

Present were Mrs. Max Reinhaus, Misses Helen and Irma Reinhaus, Mary Henderson, Minnie Phillips, Doris Robbins, Edna Beatty, Carolyn Haughton, Margaret Ore; Meses. E. T. Braanan, Clarence Skiles, F. Bacon and Eugene Rief.

Social Postponed

On account of the rainy weather the Friendly Circle class social which was to meet tonight at Mr. Saunby's, will be postponed.

Successful Halloween Party

The Young Ladies' Sodality of St. Joseph's Catholic Church was hostess last evening at a very delightful card party at K. C. hall, about 100 of the members and their friends being entertained.

The club rooms were beautifully decorated in honor of the Halloween season and fifteen tables were occupied by whist players. The first prizes of a grass basket filled with candy and a pumpkin pie went to Mrs. Walter Hiskey and Mr. Schulte.

Refreshments were served cafeteria style and from these about \$60 was cleared, which the girls will use to replenish their library.

Preacher Talks to Students

Rev. J. A. Stevenson was the speaker at the High School assembly yesterday, his subject being "The Winner," and his advice to the students was fine.

He opened his talk with the words, "I am glad to be here to talk to these boys and girls and teachers, whom I know are hungering and thirsting for inspiration. There was a little boy

once who liked a long preacher and a short sermon.

"No body likes to lose out. Be a winner!" The speaker stated that, if we lose for a good reason, not to get discouraged. He told a story of a young man who, after spending all his money and worldly goods on the lady of his choice, was cast aside, because he was "broke." The girl then proceeded to develop a great liking for a man of greater means. The poor fellow, while talking to one of his friends, was advised in this way: "Don't get discouraged. There are other fish in the sea."

To this the unfortunate youth replied, "Yes, but the last one got all my bait."

"Don't quit. That kind of spirit never wins. Look into life with determination to be a winner. Have the right kind of machine in which the mind and body can work to make you a winner."

The war, he said, has brought out the great numbers of men who are unable to qualify from a physical point of view.

"Some suffer because they lack education in the care of the body, but many do not worry or bother about their physical condition."

It is Mr. Stevenson's belief that young women who break down under a supposed intellectual strain, are really sick from eating too much chocolate and ice cream.

"There is a great value in fine physical power; it helps one to go ahead and do his work despite surroundings."

"You can't afford to play fast and loose." If you play fast, you will find that in examinations you lose. "Over there," said Stevenson, "were millions of men who learned to fight by living right. They grew strong, it's fine to be a winner physically and intellectually."

A story illustrating the advice, "Think clearly and logically to be a winner," was related.

"Pat was working busily at some job requiring no brain labor. A friend happened along and told the fellow that it would be wise to wear a hat in that blazing sun. 'It might injure your brain,' said he. To this the Irishman replied, 'Begorra, and I haven't any to hurt or I wouldn't be working on this job.'"

"In the solution of the problem of civilization and of the day, each man has a part," said the speaker. "Be able to express your opinion so as to have effect on the community."

"Be a winner from a moral point of view. There are certain standards of life not made by governing bodies of men and women but by Nature and the human mind."

Some very sad things were seen overseas by the preacher, but he says that sadder than the sight of sick, wounded and dying, is the soul consciousness. "Young men and young women who have lost out and in whose eyes one reads remorse and the consciousness that in the light of the 20th century, they have no lives as men ought to live, and have lost out."

"The finest thing that can be done is 'live clean' and be wholesome and truthful."

A wish to all that they be winners of the first prize in the contest of life ended the much appreciated lesson.

At the beginning of the gathering, the band gave a few numbers, the school song and "Bubbles" being sung by the audience.

Mr. Shives smilingly approached the front and with great faith expressed his belief in the "Poly" football team. He also told the boys that the banquet he had promised them if they won last Saturday, would be given anyway.

Coach Morrison appealed to the students to attend the game Saturday in Orange.

Successful Candy Sale

The Girls' League held a candy sale in the hall yesterday and although they were furnished with a wonderful supply of sweets, all was sold out before the girls could realize it was gone. The sum of \$13 was netted and this will be quite an addition to the treasury.

Poly Spanish Club to Meet
The Spanish Club of S. A. H. S. holds its first meeting of the term tonight and a good program is anticipated by its many members. A play, "The Wisdom Tooth," with a cast of ten, is one of the most important numbers promised.

Election of officers will come first and some very capable candidates are up for the offices.

WAGON OF LAUNDRY IS STOLEN TWICE

BERLIN, Oct. 24.—Strange is the tale of the laundry delivery wagon full of laundry that was stolen twice on the same day recently. Dirty linen is worth almost its weight in paper money in Germany nowadays. This delivery wagon, drawn by two horses and loaded with 40,000 marks worth of laundry, "disappeared without a trace" right in the vicinity of the criminal court building in Moabit while the new driver was making a delivery. Sleuths discovered the horses and wagon, camouflaged almost beyond recognition, on the premises of a junk man who took alarm and drove the "evidence" to the bank of one of Berlin's canals, abandoned it there, called up the laundry and told where the missing property could be found. A confederate, an innkeeper, had got the tip that the other was double-crossing him, drove with a truck to the abandoned laundry wagon and salvaged its valuable cargo.

Mordaut Heil, son of Mrs. E. S. Heil, of 319 East Washington avenue, who was run over by a caterpillar a year ago, was again taken to the hospital Wednesday morning to undergo an operation to have the silver plate removed. He is reported to be resting as well as can be expected at the present time. Mrs. B. Walker is staying with him.

Advertisements.

CATARRHAL DEAFNESS MAY BE OVERCOME

If you have Catarrhal Deafness or head and ear noises or are growing hard of hearing so that your druggist and get 1 ounce of Parment (double strength), and add to it 1/4 pint of hot water and a little granulated sugar. Take 1 tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Closed nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who has Catarrhal Deafness or head noises should give this prescription a trial.—Adv.

BETTER THAN CALOMEL

Thousands Have Discovered
Dr. Edwards' Olive Tablets
are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. These little olive-colored tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. The pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel. Let Dr. Edwards' Olive Tablets take its place.

Headaches, "dizziness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "lousy" and "heavy." They "clear" clouded brain and "perk-up" the spirits. 10c and 25c.

"YVONNE FROM PARIS"

CO. F. GETTING NO MONEY. IS DISGRUNTLED

S. A. Guard Unit Drilling
Regularly, Yet Receives
No Remuneration

Because of the fact that Governor W. D. Stephens vetoed a bill, passed at the last session of the legislature, providing for the acceptance, by this state, of \$2,500,000 appropriated by the federal government under a section of the National Defense Act of 1916, Company F, California Infantry, finds itself in the position of serving without pay.

As a result of this, members of the local National Guard company are more or less dissatisfied. It was stated today that if it had not been for the fact that word had been received from the adjutant general at Sacramento to the effect that the company would receive pay in spite of the failure of the passage of the bill in question, there would not be nearly so much of a tendency on the part of members of Company F to feel disgruntled.

The company is drilling regularly and is keeping up to standard in every way. Yet according to Captain A. E. Koepsel, no pay is being received by any of the members. At the time the company was organized, in June, 1918, word received from the adjutant general at Sacramento was to the effect that the company would receive pay on a basis of a fourth of the regular base pay obtaining in the regular army, or a fourth of \$30 per month, in the cases of privates.

Want Remuneration

Company F feels that it is entitled to some sort of remuneration for its services in keeping up its organization, drilling, attending rifle practice, and so on. The officers, privates and N. C. O.'s do not want much, but they want something. They feel that they should have a share in the \$2,500,000 which reposes in the treasury at Washington, D. C., and which, but for the failure of the bill at the last session of the legislature, would be available for the use of California National Guard companies.

The section of the National Defense Act under which appropriations were made available for the various states provided for the passage, by individual states, of laws providing for the organization of guard companies. The section also provided for inspection, by federal officials, of companies so organized, and for the official establishment of companies, following such inspection.

Company F organized, was duly inspected, and found to come up to every federal requirement of efficiency. The company was equipped by the government.

Bill Vetoed

The bill passed in the legislature provided for the monthly payment of \$125 to each company in the state for maintenance. One of the provisions in the National Defense Act was that all staff officers in National Guard companies—that is, officers in the quartermaster, ordnance and other departments not of the line—must have had previous military experience. The California bill, on being referred to the office of a state official, was declared, it is stated, to provide for \$83,000 per year more for the maintenance of National Guard companies in the state than under a previous statute. This viewpoint on the part of the official was not found to have been erroneous, until after Governor Stephens vetoed the bill, and as a result California is now without a law providing for the payment of members of National Guard companies.

Captain Koepsel is in communication with the adjutant general of the state, and is yet hopeful that some

HARLEY CENTRAL FIGURE IN BIG GRID CLASH

Ohio Will Win Pennant If
Blonde Star Not Stopped,
It Is Claimed

CHICAGO, Oct. 24.—"Chick" Harley, the blond star of Ohio U's football team, is the central figure of the west gridiron tomorrow. If he is stopped the big ten conference will still have a fight to determine the championship. If he is not stopped—as usually happens—Ohio probably will clinch the pennant in battle with Michigan tomorrow.

Michigan and Ohio will put on the big show of the west, although there are some other important games.

Wisconsin and Illinois get together at Urbana for what looks to be a regular conflict. Neither team has been beaten this fall. The Illinoisans have been crippled in their two conference games but expect to be in shape tomorrow.

At Minneapolis, Iowa, and Minnesota are meeting in their regular autumn fray. Minnesota is considered the favorite here.

adjustment will be brought about whereby it will be possible for members of companies in the state to receive pay.

BERNSTORFF FEARED SUBMARINE WARFARE

BERLIN, Oct. 24.—Count von Bernstorff, former ambassador to the United States, declared he always knew unrestricted U-boat warfare meant Germany would lose the war, in testifying this afternoon before the Reichstag committee investigating the conduct of the war.

For this reason von Bernstorff said he was a consistent opponent of the contemplated campaign of frightfulness and always urged the adoption of President Wilson's mediation offers.

He strengthened the case against the militarists and the pan Germans by relating a conversation he had had with General Ludendorff after his return from America.

"You wanted to prevent unrestricted warfare by our boats and make peace but we are going to have unrestricted U-boat warfare and thereby win the war in three months," he quoted Ludendorff with saying.

HOPPE WINS EVERY START IN TOURNEY

NEW YORK, Oct. 24.—With the championship tournament rounding into the last lap, it seems that Champion William E. Hoppe will retain his 18.2 balk line title without being defeated. He has now won four games and lost none.

In the fifth round of the tournament today, Slosson will play Cochran; Sutton will play Yamada; Hoppe and Slosson will meet and the night match will be played between Schafer and Cochran.

WILL ORGANIZE TO CARRY ON GOOD WORK

Americanization Chairman
Calls Meeting at City
Hall Tomorrow

A Santa Ana organization to further Americanization work in this section is to be formed at a meeting to be held tomorrow afternoon at the city hall. The hour for the meeting is 1:30 o'clock.

J. A. Cranston, city school superintendent, has been appointed as local chairman for the movement, and he has issued the following notice:

"Representatives of all organizations wishing to have a part in the Americanization work are requested to meet in the city council rooms Saturday, October 25, at 1:30 p. m. The various parent-teacher associations and clubs are urged and requested to send representatives."

The question of Americanization has been discussed at many of the P.-T. A. meetings. It is proposed through the organization to be perfected tomorrow to outline and aid in doing local work among the Mexicans. Reports upon local conditions may be made by some of those attending tomorrow's meeting.

The movement here is a part of a nation-wide movement, for the Americanization of foreigners.

Maxie Tiffany

Soprano
Metropolitan Opera Co.

will sing at
ANAHEIM

Monday Evening, October 27th

You cannot justly deprive yourself of the pleasure of hearing this wonderful singer's glorious voice. Give yourself this rare musical treat. Then pay us an informal visit and let us demonstrate to you how

THE NEW EDISON

"The Phonograph with a Soul"

has re-created her glorious voice. The most highly trained musical ears in America have failed to detect any difference between the living voice of Miss Tiffany and the Re-Creation of her voice by the New Edison. We shall be glad to play for you some of the songs she will sing at her concert.

CARL H. STROCK
112 East Fourth Street

Mrs. Fannie Russell started Thursday morning for her old home in Wisconsin over the Sale Lake route, for an indefinite visit to her mother, who is in poor health. Ray Lawson, who saw hard service overseas, has returned to California and visited his mother, Mrs. Fannie Russell, a few days. Mrs. E. O. Bunkelman made a few days' visit to her mother last week.

THE NAVY SCHOOL GIVES AERIAL PHOTOGRAPHY

Splendid Opportunity For
Learning This Most
Interesting Work

Within a short time an opportunity will be given to the young men of this country to enlist in the aerial photographic section of the navy, according to J. F. Hedrick, local recruiting officer at 197½ East Fourth street. "Thousands of young men make their start in business life in photographic work and owing to specialization systems used in commercial studios, it requires years of hard work before they are familiar enough with photographic work to command good salaries," says Hedrick.

"Photography is so varied that photographic establishments invariably follow one specialized branch of work. The four principal groups are: Portraiture, commercial photography, moving pictures, or news work. It is generally the practice to deal in only one of these and no attempt is made to handle any other class of work. Since the formation of a separate section in the navy for photography, which took place in January of last year, the demands on it have increased until now it includes all of the above subdivisions.

"Briefly, the men going through the school are trained in the most up-to-date laboratory methods, shown how to use most advantageously the latest apparatus, shown the use of the view camera, reflex, moving picture and circuit cameras, and also the more complicated aerial cameras. The photographic laboratories on the various air stations are small but fully equipped, and each man before he leaves the school, is taught to handle the business end so that he will be able to take complete charge of one when he has had sufficient experience, should he show the ability.

Not only do men enlisting for the aerial photographic section secure an educational opportunity that has no parallel, but they also have an opportunity to travel to the far corners of the world. Every great event that the navy has participated in during the past year has been witnessed and photographed by men of the photographic section. Among these were: The first arrival of our President in France; the NC-4 at every stop on her way to England; the arrival and departure of the Pacific fleet; the arrival of the R-34 from England, etc."

BUILD NOW, YOU CAN'T LOSE, IS ROUSSELLE'S OPINION

Everybody's Coming to So.
California, Says Man Just
Home From East

He who hesitates to carry out building or other improvement projects in the hope of lower prices is waiting in vain, in the opinion of A. B. Rouselle of Newport Beach, just returned from a three months' trip through Alaska, Canada, and the eastern and southern United States. Prices, in his opinion, will not drop for at least three to five years, and the difference there may be then will not pay anyone to defer action.

"I believe more in Orange county now than ever before," said Rouselle today. "This surely is 'Nature's Prolific Wonderland,' a land of wonderful opportunities. Why, if Santa Ana goes right to bat and all work together, your population will be doubled before very long. I believe now is the time to go ahead, and go ahead strong. We have the natural resources and with a little more development, a little more advertising, and a better co-operation we can do wonders.

"Everywhere I went on our trip, I talked with Chamber of Commerce secretaries and business men, and it's astounding the number of people who are coming to California. In Alaska, in Quebec and Montreal, in Boston, Norwalk, Washington, New Orleans and El Paso, everywhere there were hundreds of people headed this way, and most of them are coming to Southern California, in the coast section between Santa Barbara and San Diego. This is the favored spot, and those communities are wise who begin now—on a large scale—to prepare to receive these eastern strangers when they arrive.

"Some are coming to spend the winter, and others are closing up their affairs and coming to stay. All have money and will be ready to spend it in the communities where they make their homes. It's simply up to us to build and improve and develop our own Orange county so that we will get our share of these people who will help to make Orange county a better place in which to live."

SOUTHERN CALIFORNIA

RIVERSIDE, Oct. 24.—Fire in the brush near Keen Camp in the San Jacinto mountains has been extinguished with the loss of one house and two barns belonging to the resort. The fire is believed to have been kindled by a lighted cigarette stub thrown into the brush by a camper.

LOS ANGELES, Oct. 24.—Edward de Valera, "president of the Irish republic," and leading Sinn Feiner from the Emerald Isle, will arrive in Los Angeles on the morning of November 19. He has been invited here by local members of the Friends of Irish Freedom, who are now formulating a plan of reception worthy of a "president."

PASADENA, Oct. 24.—"Sunnycrest," the magnificent home on Orange Grove boulevard, Pasadena, of Mrs. Clara B. Burdette, widow of Dr. Robert J. Burdette, was sold yesterday to P. W. Warner, wealthy automobile man of Toledo, O. Mrs. Burdette will build another but smaller residence so that she may devote her time to her public work rather than to the care of a big establishment.

OXNARD, Oct. 24.—California lima beans will soon be advertised throughout the country by act of the directors of the California Lima Bean Growers' Association. A trademark has been adopted by the association to distinguish the association beans from others.

EL CENTRO, Oct. 24.—School girls in Central Union high school yesterday voted down a proposition to wear uniform dresses. The opposition of the senior girls, who desired to wear varied dresses during the last half of the year, was the cause of the plan being vetoed.

PASADENA, Oct. 24.—With thousands of colorful chrysantheums and dahlias dominating the display, the Twelfth Annual Flower Show of the Pasadena Horticultural Society was formally opened yesterday afternoon in the east building of the Hotel Green by an address from Chairman A. L. Hamilton of the city commission.

REDLANDS, Oct. 24.—The G. S. Giles home in West Colton avenue, one of the early ranch homes of the valley, was the scene yesterday of the felling of a giant eucalyptus tree, believed to have been the largest in this section; certainly one of the oldest. It was about 130 feet high and twenty-two feet four inches in circumference at the base. The age of the tree is not known, but it was one of the first of the species to be brought here.

LONG BEACH, Oct. 24.—Following the annual election, it was announced that Mrs. M. A. Ellison, Mrs. J. M. Tanner, M. F. McNe, J. M. Forsyth and Charles H. Stanley had been chosen to fill five vacancies on the directorate of the local Red Cross chapter. The financial report of the chapter shows total receipts of \$25,901.56 during the last six months.

Meeting the Requirements of a Gentleman's Overcoat

Choose Kuppenheimer or Styleplus

We picture here the model overcoat designed for men and young men during the fall and winter season of 1919 and 1920. This is the fashion that will be worn especially by the younger generation.

There is another model—a bit more conservative—that is favored in all good style centers for gentlemen of more mature age.

We are showing both these numbers in a nice range of sizes and all the best materials—unquestionable values—that's what they are.

You'll recognize the splendid tailoring in these garments the moment we help you slip into one. May we have that pleasure tomorrow?

READY TO LOAN ENTERTAINMENT FOR FINE EXHIBITS TO SCHOOLS EL MODENA MONDAY

Forestry and Nature Study
Can Be Easily Taught
to Pupils

New photographic exhibits on "Forestry and Nature Study" and "Farm Woodlands" may now be borrowed from the Forest Service, United States Department of Agriculture, by schools and libraries. The "Forestry and Nature Study" exhibit is a pictorial story of how trees grow, and of the buds, leaves, flowers and fruits, the typical forms of trees, the different kinds of forests, and the influences that affect their growth, and the enemies and friends of the forest. The "Farm Woodland" exhibit, which is especially adapted for use in agricultural types of woodland, how the farmer can use the woodland and sell the product, and how trees make waste land profitable and help the farmer in other ways. The exhibits are made in panel form, each panel consisting of four sepia enlargements.

Teachers who are interested in the forests in a more general way will find what they need in the original photographic exhibits of the Forest Service, which show forest conditions in the United States, how the forests are used, and how they may be preserved. For classes in manual training and the like there are exhibits of commercially important woods of the United States with explanatory charts and tables. Schools that have a lantern, or can provide one, may borrow sets of lantern slides with prepared outlines for lectures on many topics connected with forestry. For instance, there are sets on forestry in the United States, and on nature study, botany, manual training, geography, and agriculture in relation to forestry, and on street trees and wind breaks. Recently a set has been made up on recreation in the national forests. Lists of subjects and other details may be secured on application to the Forest Service, Washington, D. C.

BEGY'S MUSTARINE FOR SORE THROAT AND CHEST COLDS

Just rub on Begy's Mustarine if you want to get rid of that cold on the chest, bronchitis, pleurisy or sore throat in double quick time. It cannot blister and you can get a big yellow box of this original, real mustard plaster improvement at a very small price.

A box is equal to 50 blistering mustard plasters and with it you can stop toothache, headache and earache in 10 minutes. Prescribed by doctors for 19 years. Nothing so quick and effective to end rheumatic pains, neuritis, neuralgia and lumbago.

Be sure it's Begy's Mustarine, the original in the yellow box. The 60-cent size contains two and one-half times as much as the 30-cent size. It's great for chilblains and frost-bitten feet. Money back if it isn't by far the best mustard preparation on the market. S. C. Wells & Co., LeRoy, N. Y.

TOBACCO HABIT DANGEROUS

says Doctor Connor, formerly of Johns Hopkins hospital. Thousands of men suffering from fatal diseases would be in perfect health today were it not for the deadly drug of Nicotine. Stop the habit now before it's too late. It's a simple process to rid yourself of the tobacco habit in any form. Just go to any up-to-date drug store and get some Nicotol tablets; take them as directed and by the pernicious habit quickly vanishes. Druggists refund the money if they fail. Be sure to read large and interesting announcement by Doctor Connor soon to appear in this paper. It tells of the danger of nicotine poisoning, and how to avoid it. In the meantime try Nicotol tablets; you will be surprised at the result.

NEW COATS 25, \$35 up to \$50

SUGAR LIMIT OF 2 POUNDS MAY CONTINUE

Relief By the First of the Year Is By No Means Certain

There is little probability of the sugar situation easing before the first of the year, in the opinion of local merchants. The limit of two pounds to the customer now in vogue will continue until the first of the year, and maybe longer.

It is generally anticipated that with the arrival of cane sugar on the market in large quantities about the first of the year, the situation will be relieved and the limit raised, but this by no means is certain. The supply might not be sufficient to warrant removing the present restrictions.

The sugar purchasing public is upon its honor under the present plan. No records of purchases are being kept as was done during the war period and there is no way of determining whether the individual is playing fair. It is possible to buy two pounds at one store and to duplicate the amount in every store in Santa Ana if one wants to be "hogish" and is not willing to tote fair with his neighbor.

Sugar restrictions during the war, when it was good patriotism to curtail the consumption, taught many people that they could get along with less sweets than they had been using before. In a health way, many were benefited, and with the previous experience, it is easier now to be satisfied with the limit of two pounds per person per month. The two-pound packages are sold at 25 cents, or 12½ cents per pound. The government has been unable to control the price.

Expect Big Shortage
Sugar planters of Louisiana claim there will be a great shortage this season owing to unfavorable weather and other conditions. It is also claimed that European countries are buying the Cuban crop.

If there is a real shortage of sugar in the United States, as is claimed, and the Cuban crop, most of which came to America, is purchased abroad, there will be little or no sugar by the first of the year, in the opinion of men who profess to be in touch with the situation nationally. Should this become true, substitutes will have to be resorted to.

With press dispatches carrying reports that Brazil is preparing to raid the pocketbooks of coffee users by raising the price of coffee to a figure which may mean \$1 per pound, Americans face a real problem—living without coffee or sugar, except in such cases where one's finances will permit what will be luxuries under the higher costs.

Secretary Baker is quoted as saying that there is only enough sugar in the army to supply the troops until the first of the year.

Wanted: Japanese persimmons; highest cash price paid. Bring samples. B. C. Swisshelm, 311 N. Broadway.

COURTHOUSE NEWS

ASKS CHANGE OF VENUE IN SUIT OVER FEE

Defendant In Action Here Demands Case Be Transferred to L. A.

On the ground that at the time of the commencement of the suit against him he was a resident of Los Angeles county, S. G. Lehmer, through his attorney, J. C. Craig, of Los Angeles, today filed papers asking that the place of trial of the action through which John F. Richards will seek to recover \$1500, alleged to be due him, be transferred from the local to the Los Angeles County Superior court.

Involved in the suit is the sum of \$500, which Richards alleges he advanced, at the request of Lehmer, to N. T. Edwards, county supervisor, and P. W. Wyand, and also the sum of \$1000, which Richards claims is due him in payment for services rendered Lehmer while negotiating over some land which Edwards and Wyand had to sell and which Lehmer desired to purchase. Richards alleges that he has demanded payment from Lehmer of the \$500 he says he advanced, and also of the \$1000 he says is due him for his services, but that Lehmer has refused payment.

F. C. Drumm of Orange is attorney for Richards. The suit was instituted here on September 10.

TO ASK COURT TO ANNUL MARRIAGE

Motion will be made in Superior Court on October 31 by Ruth E. Thomas, plaintiff in an action wherein she seeks an annulment of her marriage to Harrison E. Smith to have the court declare the marriage, which was performed at Orange on May 16, 1912, illegal and void, according to a notice filed today by Clyde Bishop, attorney for the plaintiff.

The motion will be made on the grounds that an answer, filed recently by Smith, presents no issue of fact material to the plaintiff's cause of action; that the answer expressly admits each fact material to be established by the plaintiff; that by the various allegations and admissions of Smith in his answer the right of relief demanded by the plaintiff in her complaint is shown and established.

Ruth E. Thomas lives at Seal Beach.

In his answer, filed recently, Smith admitted that he had a wife living at the time the marriage ceremony was performed at Orange, but alleged that this was a fact known to Ruth Thomas.

Smith is plaintiff against Ruth Thomas in the Los Angeles courts, where an annulment suit is also pending.

BEACH ORPHANAGE IS REMEMBERED IN WILL

Among bequests made by William Fink, who died at Sawtelle, on September 9, is the sum of \$50, to the Huntington Beach Orphanage. The will, dated at Huntington Beach on February 8, 1918, was filed for probate by Paul G. Fink, through Attorneys Blodgett and Blodgett, of Huntington Beach.

ODD NEWS NOTES

ADA, Okla.—Barbers' census of the mustache crop, just announced, shows almost complete failure of the famous western movie decoration. Only one man in eighteen has one.

HOUSTON, Tex.—Southern Pacific train was half an hour late. Passengers said the time was lost hunting the engineer's spectacles. The train backed a mile while the fireman searched for the missing "eyes."

DALLAS, Tex.—City commissioners have been asked to pay the \$3 hospital bill incurred by "Tabby," the central fire station's mouse catcher. "Tab" lost a foot under a street car.

SAN FRANCISCO.—Mrs. Amelia Campana screamed several times and fell in a faint when her divorce suit trial was postponed one day.

DOWNEY, Cal.—Paper money has its drawbacks. Mrs. Lewis kept her bankroll in the stove with safety all summer but with the first cold weather someone built a fire.

FREEDOM OF SPEECH IS NOT FOR ALIENS

TONOPAH, Nev., Oct. 24.—The right of freedom of speech extends only to citizens of the United States and not aliens, said District Judge Averill in overruling the demurrer of George Kinser and other defendants in the I. W. W. injunction suit.

The situation is an outgrowth of the miners' strike which has been officially called off.

For the Hallowe'en party, pumpkin colored ice cream and individual shaped molds. Get it at the Dragon.

Do you want to rent a typewriter? See R. A. Tiernan Typewriter Co., 219 West Fourth street, Phone 137.

Bail of Man Held On Fictitious Check Charge Set at \$1000

IN default of \$1000 bail, Harold Patterson, arrested under the name of Lester Patterson, on a charge of passing a fictitious check, today was in the county jail, awaiting his preliminary examination in justice court on November 6, at 2 o'clock.

The complaint against Patterson was sworn to by Hugh Larue, groceryman, of Cypress. The check was made out for \$25.25, according to the complaint. A blank check of the Anaheim National Bank was filled out by Patterson, it is alleged. The name "W. H. Musser" was signed to the paper, the complaint sets forth.

At the time he swore to the complaint Larue said that Patterson came to his store and offered the check. Larue said he became suspicious and let Patterson have only \$20 on the check. When the check was presented to the bank it was found worthless, according to the complaint.

EX-SOLDIER FIGHTS BACK IN LOT SUIT

Denial that Albert E. Tanberg and his wife have any interest in a Laguna lot which is involved in litigation begun in the Superior Court by Thomas Smith, former soldier, against his wife, Corintha L. Smith, is contained in an answer filed by Smith today to the Tanbergs' complaint in intervention, filed recently on their behalf by Attorney John A. Harvey, of this city.

Smith in his answer to the complaint in intervention denies that the Tanbergs have been, since October 2, or at any time, the owners of the lot in question. He also denies that the Tanbergs have an interest in the matter in litigation.

In his complaint, filed several weeks ago, Smith recited that upon his return from the service certain difficulties arose between him and his wife. A settlement was agreed upon, Smith stated, and as part of this settlement Smith deeded the Laguna lot to his wife. Through the action he seeks an order of court returning the property to him. He alleges that he deeded the lot to his wife on the strength of representations by her that she had at all times been faithful to her marriage vows to him. Later, he asserts, he found that his wife's representations had been false.

Following the filing of the complaint by Smith, the Tanbergs filed their complaint in intervention, alleging themselves to be the owners of the lot. They seek a decree of court adjudging them the owners.

In the answer to the complaint in intervention, Smith admits that he claims an interest in the lot adverse to the intervenors, and alleges that he is the absolute owner of the property. The answer was filed on Smith's behalf by Attorney Arthur G. Baker, of Los Angeles.

NOT GUILTY, SAY MEN IN FIRE CASE

Pleas of not guilty were entered in justice court by Frank Martinez, of Fullerton, and Bert L. Ebert, of Long Beach, to charges of having left camp fires unguarded, and their trials were set for October 26, Martinez' at 10 o'clock and Ebert's at 2 o'clock. Both were released on their own recognizance.

Warrants for the arrest of the two men were issued on complaints sworn to by Forest Ranger J. B. Stephenson, of El Toro. Martinez had left a fire burning near a mine where he is working in Pete canyon, a tributary of Trabuco canyon, according to Stephenson. Ebert had driven into Trabuco canyon for an outing and after cooking a meal had gone away leaving his camp-fire still burning, according to Stephenson.

TO SEEK DIVORCE
Through a suit on file today, Glenn S. Warner will seek a divorce from Ethel J. Warner. Head & Rutan are attorneys for the plaintiff.

Thought His Time Had Come—Disappointed

"I never was more surprised in my life than when I took the first dose of Mayr's Wonderful Remedy. My stomach trouble had been of eight years' standing, sometimes so bad as to cause convulsions, followed by hemorrhage. I thought my time in this world was short, and believed it the last medicine I would ever take. It is now eight weeks since, and I am feeling better than for many years." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. At druggists everywhere.—Adv.

WIDOW PARTY TO SUIT WHEREIN \$700 IS ASKED

Tractor Involved In Action Filed Through Orange Attorney

Damages aggregating \$700 will be sought by H. O. Hunton, from Kate A. Boydston, a widow, and A. W. Nash, through a Superior court suit, which was on file today.

According to the complaint, filed for Hunton by Attorney F. C. Drumm of Orange, the plaintiff, on or about May 1, paid out for the benefit of the defendants, various sums, totalling \$60, to certain persons. Hunton claims he has demanded payment of this sum, but has been refused.

Hunton alleges, further, that about May 1 he sold a tractor to Mrs. Boyd

ston and Nash. He says the tractor was worth \$500 and that no part of this sum has been paid him by the defendants.

Employed by the defendants, Hunton declares that he rendered services as foreman for them in this capacity from May 1 to June 1. For these services Hunton says Mrs. Boydston and Nash agreed to pay him \$125, but that no part of this sum has been paid.

The complaint goes on to recite that on May 2 the defendants had G. M. Gay haul twenty tons of fertilizer for them from Orange to their farm. The value of these services was \$15. Hunton declares, Gay has transferred his claims against the defendants for this sum to Hunton, the latter states.

SNELLGROVE TRIAL CONTINUES TODAY

The trial of A. Snellgrove, automobile repairman, of Ramona Acres, Los Angeles county, accused of a statutory offense against Lillian Doyashere, 14, of this city, was resumed before Judge West in Superior Court at 10 o'clock this morning.

Attorney Clyde Bishop is appearing for the defendant. The case for the state is being handled by District Attorney L. A. West and Deputy District Attorney W. F. Menton.

Those on the jury are: E. L. Selvidge, L. R. Whitney, D. E. Ross, J. C. McDowell, Henry Loptein, D. D. Gardiner, J. A. Eymann, F. J. Mallert, A. A. Mallert, W. H. Jones, J. T. Dilley and F. Swift.

ACCUSED YOUTH DENIES HE IS BANK BANDIT

LOS ANGELES, Cal., Oct. 24.—Wallace Hall, 20-year-old son of J. Hall, manager of the Califor Redwood Company in Oakland, today stoutly maintained his innocence any connection with the robbery of the Emeryville, Calif., Bank, which he is under arrest here.

He did not waiver in his protestations of innocence when confronted with the alleged confession of Clifford Jackson, of Oakland, his alleged accomplice.

Hall admitted living here in comparative luxury for a time. He claimed this by relating the story of his marriage to Betty Alexander, Precita avenue, San Francisco, pretty dancer. He said he and Alexander met here, and three weeks later decided to pool their funds, married, live in case until the money was gone and then go to work.

He said they carried out their plan but quarreled when the money was gone, and that his wife is now back in San Francisco.

Hall probably will be taken to Oakland today.

PIANO BUYERS' Attention!

Refinished pianos that cannot be told from new at less than half of the original cost. Such well known makes as Shoninger, Kohler & Campbell, Milton, Kohler & Chase, Ellington, Kingsburg and others. The largest stock of pianos and talking machines ever shown in Santa Ana. Come early and select your Christmas instrument.

For the man and young man

Mighty smart, yet conservative enough to meet the demands of business, are the new suits for men and young men. The tailoring in them is unusual; unnecessary linings and paddings have been eliminated; men have always been looking for this. They look well, and they fit as well as they look. Rich all-wool materials, selected patterns; sizes to fit any figure.

OVERCOATS

New and distinctive style individualize our Fall and Winter OVERCOATS. They are made of carefully selected fabrics and the tailoring expresses refinement in every detail. You need one of these right away.

FOR THE BOY

Our clothing department for boys and youths is complete in every respect and you can save money by bringing your sons here to be outfitted.

Our suits in this department represent excellent values, all wool fabrics, very handsome patterns.

If it's a sweater, overcoat, shirt, cravat, etc., bring him in. Our showing will please both in appearance and price.

SPEEDING CHAUFFEUR KILLED AT FOOT OF MAIN STREET

HOPES TO MAKE M. E. ASSEMBLY GREATEST IN THE WEST

Rev. C. H. Scott Believes Annual Gathering Will Equal New Jersey's

Setting his eyes toward the time when Huntington Beach will become as great a center of the Methodist church as is Ocean Grove, New Jersey, Rev. Charles H. Scott has announced that he is commencing plans for the development of the annual Methodist meetings at Huntington Beach.

He wants the Methodists to have a big auditorium at Huntington Beach, with other assembly buildings, and with sessions of various kinds that will last throughout each summer.

At the last meeting of the Southern California Methodist conference, Rev. Scott, former pastor of the Methodist church at San Bernardino, was appointed superintendent of the Southern California Methodist assembly, which for years has met each year at Huntington Beach. He is a man of purpose and energy, and is declared by Santa Ana Methodists to be a man capable of carrying forward the plan upon which he has set his heart.

"The work to which I have been appointed," said Rev. Scott, "is the superintendency of our summer assembly. For some years we have had an enterprise down at Huntington Beach. I have been secretary of the board of directors for ten years. We have been feeling that we ought to be doing much bigger things and have made up our minds to take active steps to build an institution comparable with the one at Ocean Grove in New Jersey. That is the center of Methodism on the Atlantic coast and it has just rounded out its fiftieth year. It is open all summer and has an auditorium which seats 7000 people and one of the finest pipe organs in the world. The auditorium is surrounded by other buildings and thousands upon thousands of people summer there from all over the east and south. For years it has been a tradition that the President of the United States visited it at least once during the summer. Many of the outstanding people of the past fifty years have been brought to Ocean Grove in the summer time.

"Our idea is to make such an institution here to become the great educational and religious summer resort of the southwest. There is a possibility that it may remain in its present location and be much expanded, though the likelihood is against that, because it is in a town already platted and sold out and there will be a lack of space for what we want to accomplish. It will, however, be established somewhere on the coast near Los Angeles, where abundant room is to be secured and where it will be easily accessible. The whole question is to be taken up and reviewed from the standpoint of giving

(Continued on Page Ten)

Rev. Paul E. Wright Holding Revival At Needles, Ariz.

REV. PAUL E. WRIGHT, former pastor of the First Christian church here, recently returned from Y. M. C. A. work in France, has been appointed by the Arizona State Missionary Board of the Christian church to conduct a number of revivals in Arizona.

Rev. Wright left here this week for Needles, Arizona, where he will open the first of his Arizona revivals. The Needles meetings will last about three weeks. While Rev. Wright is away, his family will remain here.

ASKING SCHOOLS AND SCOUTS TO HELP FUND

Attorney J. C. Burke, Orange county chairman for the Roosevelt Memorial Association fund, believes that Orange county can more than subscribe its quota through campaigns made through the schools and by the Boy Scouts.

"I have not yet been notified as to what this county's quota is," said Chairman Burke, "but whatever it is, it will be raised. I am expecting notification today as to what the quota for the county is.

"I am planning to take up with school heads and Boy Scout troop leaders tomorrow some details of plans for raising funds in this county. The object of the Roosevelt memorial fund, I am sure is well understood. It is for the purpose of keeping before the mind of the American public for all time the value of the work centered in the life of Theodore Roosevelt.

"To recognize the value of his rugged character, his fearlessness, his conception of the value of American citizenship, his purpose to develop to the fullest the ideals of democracy and his general bigness. It gives the American public today a chance to express its admiration and love for one of the most versatile as well as one of the most useful of all men of any time."

The campaign throughout Southern California is meeting a generous response, according to the announcement of Miss Mary Smith of Los Angeles, campaign manager, and Marshall Stinson of Los Angeles, chairman of the committee in charge of the work of collecting funds.

SEEKING FACTS ABOUT CHURCH WORK DONE IN THIS COUNTY

Pastors of County Are to Make Out Their Reports Before Nov. 1

Statistics concerning church conditions in Orange county are to be gathered by the 1st of November.

Plans for the work of gathering the statistics were made at a luncheon at James' Cafe, attended by Orange county organizers of the Inter-Church World Movement. These organizers are to push forward the work of the movement in surveying the strength and needs of individual churches and communities of Orange county, and to carry on the work of the movement after the survey is made.

The Inter-Church Movement aims to perfect an organization through which duplication of effort by denominations and individual churches may be avoided. In order to do the work right, it was decided that the first thing that should be done was to make a survey of the whole county, that the needs might be known. Preliminary reports to national headquarters showed many areas in the United States without churches enough to serve them.

Data to be collected here will include the location of the churches of the county, the work and fields of each. The report will show what communities, if any, are without sufficient churches.

Use County as Example

It has been decided by the state authorities to make the survey here first and then to use Orange county as an example for the whole state. This county is selected for the first survey because it is a small and well organized district. The work here will be pressed so that all data may be secured by the first of November. Mrs. Neil of Los Angeles, is gathering the information here.

Planks have been mailed to all the pastors in the county and the committee urges that these blanks be filled out as soon as possible so that the reports may be completed.

G. W. Kitzmiller, county chairman of the survey, had to resign the position as the work interfered with his work as county Sunday school secretary. Rev. George A. Frances of Garden Grove, was made his successor.

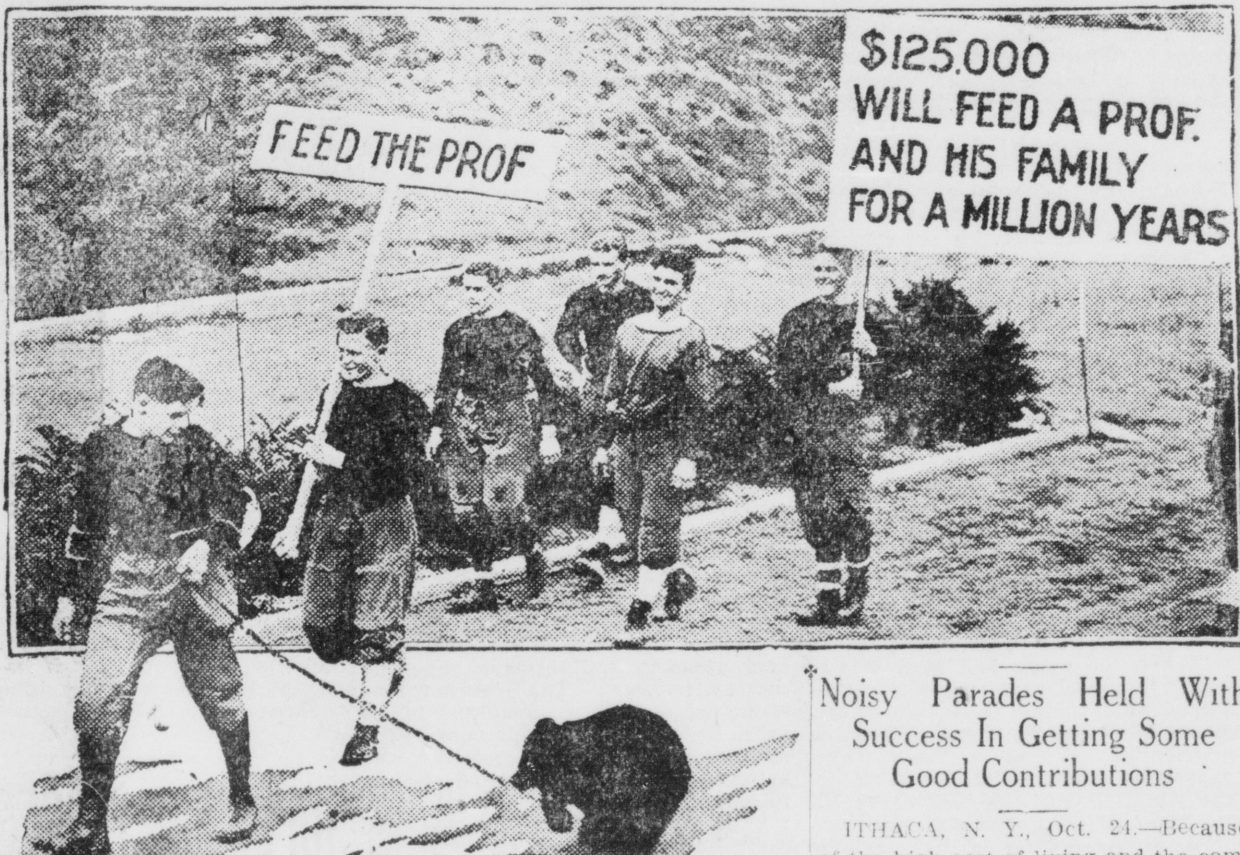

Representatives at the luncheon were: Mr. and Mrs. C. A. White of El Modena, Mrs. Neil of Los Angeles, Rev. C. A. Frances of Garden Grove, Rev. H. B. Clark of Fullerton, Rev. W. E. Spicer of Brea, Rev. G. H. Woodroof of Brea, Rev. W. L. H. Renton, Rev. J. G. Kennedy, Rev. John Oliver, Rev. A. T. O'Rear of Santa Ana, and William F. Kroener, county Y. M. C. A. secretary, of Orange.

Kettner Is Mystery Man In California Politics

If there is any political strength lying in the deep channels of mysterious rumors, Congressman William Kettner is a bulwark of strategy.

Kettner is not going to run for congress again.

Kettner certainly is going to run for congress again.

Kettner is going to be a candidate for the Democratic nomination for United States Senator against Senator James D. Phelan.

It is all bosh! Kettner is not going to run against Phelan, whatever else he does.

There are four positive statements, and they cannot all be true.

Kettner announced weeks ago that he would not be a candidate for reelection as congressman for this district. His declaration carried with it the positive statement that he was going to return to private life so that he could make money enough to carry him into old age, that financially politics had been a money-loser for him.

Santa Ana Democrats say that they have no word that leads them to believe that Kettner has changed his mind.

What Overshiner Says

"The last time I saw Kettner he told me he was not going to run," said Postmaster Overshiner this morning. "Everybody knows that San Diego people want him to run again, and that they will do everything in their power to get him into the race, but so far as any of us know here, Kettner is not going to run."

Not long since a report was published in a number of papers to the effect that a fund had been raised in San Diego to be used in supplementing Kettner's salary for another term. That rumor carried with it the declaration that Kettner had agreed to

WILL HELP SUNDAY SCHOOL CONVENTION

Under competent leadership, conferences on the work of any particular department of the Bible School, give an opportunity to study that department at close range. Such have been provided for at the Orange County Annual Sunday School Convention at Anaheim, October 30 and 31, occupying practically all of the forenoon sessions.

With such leaders as Rev. Hugh C. Gibson, general state secretary for Southern California, Mrs. Pearl V. Gentry, state superintendent of children's division, Mrs. Julia N. Cunningham, of the Christian church force of Los Angeles, Rev. Wm. M. Perry, pastor of Fullerton Baptist church, Rev. C. A. Cole, Christian pastor at Glendale, Rev. George C. Butterfield, formerly a president of the County organization, now Presbyterian Synodical superintendent, Mrs. A. L. Dennis, successful teacher of a Woman's class at the Biola, Rev. J. D. Springston, Director of the Commission of Religious Education of the South California Baptist Convention, and Rev. J. G. Kennedy, D. D., United Presbyterian pastor at Santa Ana, every teacher and officer is assured a helpful conference.

SKULL FRACTURE CAUSES DEATH OF WALTER L. FOWBLES

Car Fails to Make the Turn From Main to Newport Boulevard

Walter Lee Fowbles was killed, Frank Booth was severely bruised and the lives of three other men were in jeopardy at 8 o'clock last night, when a speeding automobile turned over sideways once and half at the south end of Main street. Fowbles was a chauffeur for the Wm. Fox Film Company and the others were movie actors, all of Los Angeles. Booth is an assistant camera man. The others were G. Felix Schoedsack, S. Philip Salvador and P. Whitman.

Fowbles suffered a fracture of the skull, a compound fracture of the right arm and his body was badly bruised. He was taken to the Santa Ana hospital, where he died about three hours after the accident, without recovering consciousness. He had been married but a short time. His wife arrived from Los Angeles a few moments before he expired. He was 34 years of age and resided at 944 Winfield street, Los Angeles. Booth's injuries are minor, being severe bruises about the body. He also was taken to the Santa Ana hospital, where he is resting comfortably today. He is 17 years of age. His father is Henry J. Booth, who lives at 5316 Santa Monica boulevard, Los Angeles.

Enroute to Balboa

A party of thirty Fox film people were enroute from Los Angeles to Balboa, where the Fox company is working, having arranged a set for a picture at that point. There were four machines. Ed Cline, a director for the company, was in one of the cars following the machine that went into the ditch.

It is believed that Fowbles was unfamiliar with the road. He was driving his machine at fast rate when he came to the turn from Main street to the Newport boulevard and could not handle his machine under such speed in negotiating the turn safely. Striking the Southern Pacific railroad tracks just before the turn at the speed he was traveling, caused his car to wobble, and when he attempted to make the turn the machine skidded, turned over forward and then rolled over on its side, turning over once and a half, with the machine headed in the direction opposite to which it was going. The car stopped about 100 feet west of Main on the Newport boulevard.

Fowbles was caught in the wreckage and his head probably was crushed by being struck by the seat or wheel of the car.

Brought to Hospital

The injured men were brought to the Santa Ana hospital in one of the other cars.

County Motorcycle Officer O. K. Carr, who went to the scene of the accident, came near taking a header

\$125,000
WILL FEED A PROF.
AND HIS FAMILY
FOR A MILLION YEARS

Noisy Parades Held With Success In Getting Some Good Contributions

ITHACA, N. Y., Oct. 24.—Because of the high cost of living and the comparatively low salaries paid college professors, students of Cornell University have started a campaign to raise \$5,000,000 for an endowment fund which will be used to properly remunerate the educators.

The students are making it a real college affair and have named it "Feed the Prof" Campaign. They are using all sorts of tactics to attract attention to the campaign and get the money. Parades are frequent and they are more or less noisy affairs. However, they are helping swell the fund and that is the main thing.

At the big Cornell-Williams football game recently the players put on an impromptu parade which was headed by a player leading a pet bear. Banners were carried and there was a lot of noise and enthusiasm, following which there was considerable donating done by alumni and friends of the big college who were present to see the game.

BIG SQUASHES, MELONS GET RIBBONS AT FAIR

BEMIDJI, Minn., Oct. 24.—Agricultural exhibits at the Beltrami County Fair this year surpassed any ever shown in this section. The watermelon winning the blue ribbon weighed 32 pounds. A 19-pound citron was also a feature. Several Hubbard and Golden Hubbard Squashes, weighing about 35 pounds each, were on display, and a white squash weighing 90 pounds was a prize winner. A stock squash weighing more than 100 pounds and a 76-pound pumpkin were also eye-dazzlers.

H. H. Moye, collections, Phone 1314.

Our Saturday Specials ARE DESIGNED TO SAVE YOU MONEY

We are not afraid of anyone beating our prices or our quality but it will save you time and money if you come here to do your buying in the first place. In addition to the prices we quote below, we are offering a great stock of shoes at prices far below the market value. Nobody in Santa Ana has a better line of shoes to select from.

Anybody In Santa Ana Want a Bargain In a Piano or Player?

Important Announcement

The Los Angeles office of the Wiley B. Allen Co. has decided to close out the stock of pianos and players I have on hand at the below address on or before November 1st. Scarcity of stock is the reason. Why does this announcement interest you? Because I secured permission to offer for a few days the stock on hand at a discount—not a large one but more than you can get in Los Angeles and enough to make it worth your while to visit my salesroom at the earliest moment possible. I can close up without giving my prospective purchasers a notice and an opportunity to save some money at the same time.

Aren't you about ready to get rid of that old silent piano in exchange for a lively, up to the minute player that everyone in the house will play and enjoy?

I have such a player and NOW is the time to buy it. Come in any day for a demonstration of either Players or Pianos. Yours for a square deal.

P. F. ADAMS, Representative.

THIRD AND BUSH.**Reporter Tells of Famous
Mystery Paper of Belgium****Pierre Goemaere Relates How La Libre Belgique Was
Published in Spite of German Army Men Who
Sought to Stop Circulation**By Don E. Chamberlain
(United Press Staff Correspondent).
NEW YORK, Oct. 18.—How the
famous mystery paper of occupied
Belgium—La Libre Belgique (Free
Belgium)—defied the German govern-
ment and told the truth of the war
right under the noses of the German
officials in Belgium, was told here to-
day by Pierre Goemaere, one of its
staff of reporters.Goemaere, who is only 25, is accom-
panying the Belgian rulers on their
tour of the United States, and today
for the first time he told the United
Press some of its history. Goemaere,
who acted as one of the twelve con-
tributors of the famous newspaper,
has written a book on his experiences
which is shortly to be published."The Libre Belgique was founded
at the beginning of 1915 by the aged
Brussels journalist, Victor Jourdain,
who gathered around him several de-
voted collaborators," said Goemaere.
"Together this group of friends wrote
the articles for the paper. To do this
they retired with their chief to a se-
cret chamber, where an electric bell
had been installed to warn them of
danger. While waiting to send the
articles to the printer, the writers hid
the manuscripts in the pipes of the
radiators."The day on which the paper had to
be printed saw the manuscripts trans-
ferred to the hollow interior of several
walking sticks, and thus were they
transported through the streets."Where was the paper printed? is a
question often asked. The Libre Bel-
gique had no less than sixteen print-
ers (they were all thrown in jail one
after the other), so it can well be im-
agined that the place of publication
changed often. The Germans believ-
ed the printing place was in an auto-
mobile, but the Libre Belgique was
most often printed in the cellars of
abandoned houses or in secret under-
ground spots."If the work of printing was so
dangerous there was another part of
the task of publication even more per-
ilous—that of distribution. Here is
how managers generally proceeded.**All Had Passwords.**
"When the paper had been printed
—fifty thousand were run off at a time
—they were carried to certain central
places known to the men in charge of
distribution. To enter these places
passwords were required, such as 'For
the King,' 'Praise God,' 'Princess Ma-
rie Jose,' or 'Long Live America.'"After thus obtaining their supplies
the distributors went about the even
more perilous task of giving them to
the people. To give an idea of the au-
dacity of these distributors it is well
to remark that one man invariably
found a way of placing a copy of the
paper on the desk of the German mili-
tary governor in Brussels, who raged
and fumed but never found the guilty
one. The distributor learned that at
a certain hour each day the governor
went into a room adjoining his to dic-
tate letters. He chose this hour to
enter through a window. After sev-
eral times, German detectives were
put on the job, but they never suc-
ceeded in catching the man."The Germans were highly enraged.
Their pride could not support the
thought of being thus mocked. But
the more the lion roared the more the
mouse tickled. Street urchins took
great delight in pinning the secret
paper to the backs of dandy German
officers.**"The Woes of Love."**
"When the Libre Belgique had
reached its first anniversary a humor-
ous cartoon was published under the
title 'The Woes of Love.' It showed
the German governor seated in his
armchair, with an air of desolation.
Before him were the records of all the
searches which had been made to dis-
cover the publishers of La Libre Bel-
gique, also the bills paid to detectives.
Above the governor's head was the in-
dication of his dream: an automobile
rushing about in a cloud, with the poor
official wringing his hands and crying,
'For a year now I have searched for
the night and day, O beloved, but
always thou hast escaped me.'"Another time the Libre Belgique
published the portrait of the governor,
and under it these words: 'Our dear
governor has done us the honor of
sending his autographed photograph,
and we thank him heartily.' The al-
leged autograph was as follows: 'I
thank you sincerely for all the compli-
ments you have not ceased to shower
on me but I ask you please to treat
the animals with gentleness.'Advertisement
**NEGLECTING THAT
COLD OR COUGH?**

at all druggists. Try them tonight.But the woman had made an agree-
ment with her husband that if the
Germans ever arrived in his absence
she would place on the door the sign
'closed.' Without losing any of her
nerve she said to the Germans, 'I had
better put this sign on the door, to
keep away customers who may come
in and annoy you by their pres-
ence.' The detectives conferred and
decided it was a splendid idea. 'But do
not judge yourself,' they said, 'we will
put up the sign ourselves.' And so
they did.**Husband Sees Sign.**
"When noon came the husband ap-
proached his store and seeing the
sign walked on nonchalantly down the
street, and was saved."One day the Germans made a tre-
mendous effort to capture the col-
laborators of the Libre Belgique. One
hundred and twenty two persons were
thrown into prison. Everything had
been discovered. The secret office
had been found, also the printing plant
and the stock of paper."That night the German governor
gave a great banquet to celebrate the
death of La Libre Belgique. At desert
the governor rose and thanked
everybody who had anything to do
with the discovery of the paper and its
editors. Then, raising his glass, he
said, 'I drink to the end of our night-
mare and the death of the Libre Bel-
gique.'"But at that moment a German of-
ficer came in and threw a paper on
the festive board. The governor, con-
sternated, beheld a new issue of La
Libre Belgique, on which appeared a
photograph of all the detectives who
believed they had discovered the edi-
tors and plant."The legend was: 'These men
think they have killed La Libre Bel-
gique. As they see, it still exists.
However, they must not despair, and
to stimulate their zeal, we offer a
prize of 100,000 marks to anyone of
their number who will come to visit
us in our office.'**CAR STORAGE RATE
TO HELP SHIPPERS**SAN FRANCISCO, Oct. 24.—Relief
for California fruit shippers and lum-
ber men is seen in the announcement
of District Director William Sproule
in behalf of the United States Rail-
road administration that, effective
October 20, all roads under Federal
control would levy storage charges of
\$10 per day on refrigerator cars not
unloaded after five days from which
free time begins, and a similar charge
on cars of lumber held for reconsign-
ment after forty-eight hours free time.
Both charges are in addition to the
present demurrage rates.The new tariff has been filed by J.
E. Fairbanks, general secretary and
treasurer of the American Railroad
association, in behalf of all roads and
under authority of the Interstate Com-
merce Commission.Following close upon the appoint-
ment of terminal car service commit-
tees at all important centers, this lat-
est step to secure prompt release of
equipment and speed in car supply is
expected to greatly facilitate the Ad-
ministrator's efforts to supply the
needs of the shipping public.One of the main difficulties the Cal-
ifornia fruit shippers have had to con-
tend with in the present car shortage
has been delay in unloading cars at
Eastern points. Hundreds of cars,
badly needed in the west, have been
held in storage by brokers and receiv-
ers. The same thing to a lesser ex-
tent has handicapped Western lum-
bermen.The newly levied penalties on using
cars for storage purposes constitute a
drastic effort to release the car supply
and meet conditions brought about
by abnormal crops.**GIRL TRAVELS 4200
MILES TO BE BRIDE**DANVILLE, Ill., Oct. 24.—After
coming 4200 miles to wed the man
she had met in Antwerp, Belgium,
Miss Alice Rubens and Ira Weaver, a
returned soldier, were married here
recently. The bridegroom was serv-
ing with the 100th Engineer Train
when he met Miss Rubens.He was walking down the streets
of Antwerp when he noticed a young
man having trouble with his automo-
bile. Weaver stopped, offered his ser-
vices, and the motor was soon run-
ning. He was invited to the home of
the man whom he had assisted, and
there met the sister.Their friendship quickly ripened

**COUNT KETTNER
MYSTERY MAN
IN POLITICS****Is He or Is He Not Going to
Run For Congress?
For Senate?**

(Continued from Page Nine)

Kettner would start with a "solid
South backing" of Orange and San
Diego counties and that the south felt
that it should be represented in the
Senate. Kettner is to San Diego what
Julius Kahn is to San Francisco, and
would be a formidable opponent for
Phelan.Local Democrats who were seen
here this morning pooh-poohed the idea
that Kettner would run against Phelan
and they declared that so far as they
knew, Orange county Democrats had
never been consulted about any such
a program, and if the mayor of San
Diego had promised Orange county's
support, he made the promise without
consulting Orange county Democrats.
Those Orange county Democrats will
support Kettner if he runs for U. S.
senator, of course, but they don't be-
lieve that he is going to run. They
say he hasn't got the money to make
a race against a man like Phelan, who
is well supplied with one of the things
that is said often to be an essential in
making a race for United States sen-
ator in this state.**Republicans Believe It**Many of the Republicans of the
eleventh district are firmly convinced
that Kettner is going to run again
that he will do as he has done before
—reverse his decision. There are a
number of possible candidates among
the Republicans. These possible can-
didates include State Senator Sample
of San Diego, Superior Judge Luce of
San Diego, State Senator Evans of
Riverside, State Senator King of Red
lands, Superior Judge Goodcell of
San Bernardino, and R. C. Harbison
of San Bernardino.And each and every one of them
would like to know first of all whether
or not Kettner is going to be a candi-
date for re-election, for if he is, the
city of San Diego is not going to be
counted upon to vote on party lines at
all.**HOPES FOR LARGEST
ASSEMBLY IN WEST**

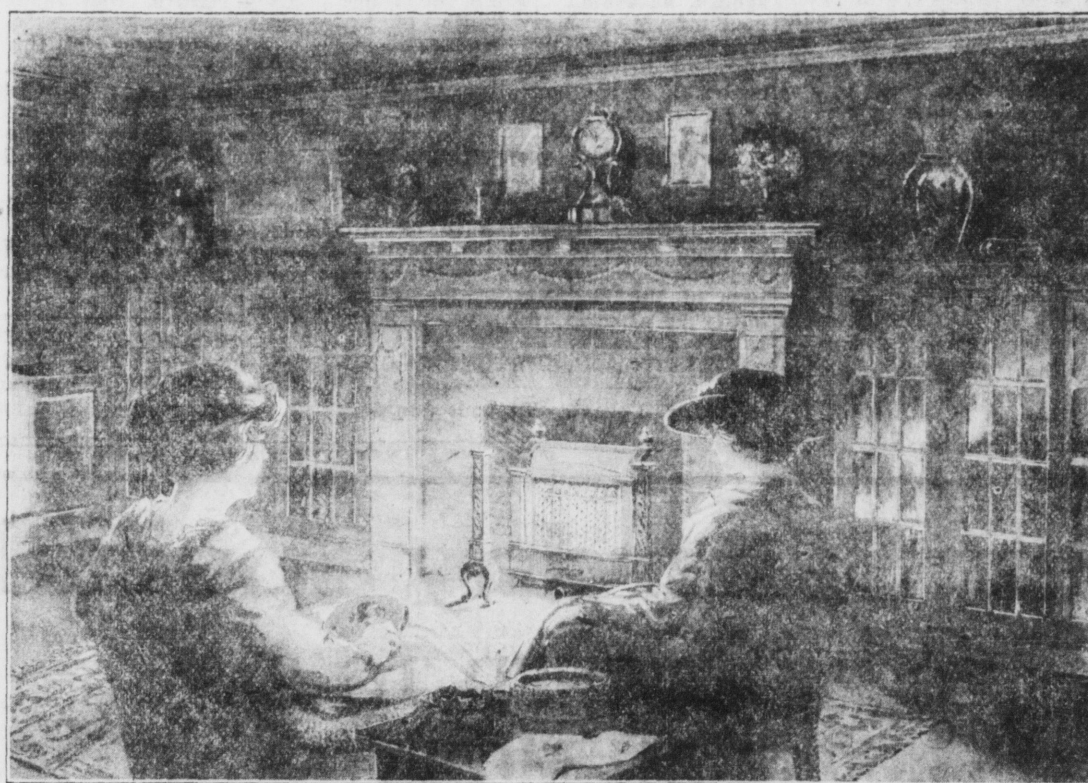

(Continued from Page Nine)

this section what we ought to have
without respect to what we now have."It is my idea that when this insti-
tution is built, while I will represent
the Methodist and it ought to be an
expression of interdenominational co-
operation, a great summer city for re-
ligious and educational life. This kind
of a community should be so built that
the various denominations would cen-
ter there, each with its own program
and at certain points not denomina-
tional would come together. My
thought is to locate a summer group
of religious training schools around
the camp or city to which the out-
standing personalities of our times
will be brought for the evening pro-
grams while the day sessions will be
under denominational auspices. That
is, the evening sessions will be under
the associated, interdenominational
auspices."It is a dream which it will take
years to fulfill, but when it is accom-
plished it will be something like
Northfield, Mass.; Bay View, Mich.;
Winona, Ind.; or Lake Shore, Ohio
where the property investment runs
up to a million or so in value. They
have a whole summer of high grade
educational and religious life there."The old-fashioned idea of the camp
meeting has about worn itself out and
in its place has come an institution
no less evangelistic which carries
along with it the other features of re-
ligious information and training and
has a much broader scope."**CHAUFFEUR KILLED

WE ARE MAKING NO FORECASTS SAYS 'SPUD'

Poly Coach Bases Hope on Fight, Determination In Fray With Orange

"Santa Ana is making no predictions as to the outcome of the Orange game, Saturday. We are spending every effort to strengthen our weak points and round our team into a better machine. Our regular line-up in backfield will be weakened by the injuries to Spangler, Taylor and Coffman and we are making no predictions as to our scoring ability. Our hopes are based on fight and determination."

This was the statement today of Coach "Spud" Morrison, on the eve of tomorrow's contest with the Orange Union High School team at Orange. Morrison has been putting his crew through some gruelling work-outs this week, and it is believed by the rail birds that when the team appears on the Orange gridiron tomorrow it will be found to possess considerably more snap than it possessed a week ago—this despite the weakening of the team because of the injuries players received in last Saturday's game with Fullerton.

With the exception of left end, which will be played either by Arkley or Stark, Morrison has definitely determined on the line-up he will use against Orange as follows:

Stafford, R. E.; Westgate, R. T.; Dungan, R. G.; Denning, C.; Clark, L. G.; Brown, L. T.; Arkley, or Stark, L. E.; Wilcox, Q.; Cock, F.; Everett Best, R. H.; Elliott Best, L. H.

ATLANTIC INDIANS HOLD TRAP SHOOT

NEW YORK, Oct. 24.—The first pow-wow and trap-shoot of the Atlantic Indians was to be held at the Travers Island home of the New York Athletic Club here today and tomorrow.

Like all other shoots given by Indian organizations, this event is an invitation affair. The organization, here, just blooming, has 150 trapshooters affiliated with it. The list includes amateurs as well as professional shots.

The main events during the shoot will be the Indian Championship and the Indian Handicap. In addition, there are to be 150 target competitions daily. Six yardage trophies have been offered, as well as average trophies and trophies for professionals to shoot at.

M. Ward Hammond of Philadelphia is president of the Atlantic Indians. E. R. Cavin of Wilmington, Delaware, is secretary and treasurer.

TATTOO MAN OFFERS LASTING ROSY CHEEKS

LONDON, Oct. 23.—Perpetual bloom of youth is one of the promises of the "professional" tattoo man. If a woman desires a rosy complexion the tattoo man says he has found the means of satisfying that aspiration. No longer is he satisfied with decorating sailors or prize fighters with gorgeous dragons, national emblems and such tender things as cupids, hearts and arrows.

A society woman is said to have preferred a panorama of flowers and leaves.

"It is possible to camouflage a bald head with imitation hair," said this expert, with twenty years' practice in old London.

LT. DEEVER'S MEDAL GIVEN TO PARENTS

Riverside Press.—Mr. and Mrs. D. Deever have received from the Orange County War Service Recognition association a beautiful bronze medal bearing the name of their son, the late Lieut. Charles L. Deever. Lieut. Deever enlisted from Orange county, as when America entered the world war he was teaching in the junior college at Santa Ana. The county made provision for these medals for the families of all service men from that county who made the supreme sacrifice and it is a fitting tribute to the county's "World War Heroes."

Lieut. Deever was reported missing after one of the days of sanguinary fighting in the Argonne forest, but all efforts to locate his body proved unavailing. His parents, many friends and leading army officers have made every effort to get some clue to the circumstances of his death and to find the body but they all proved unavailing. It is possible that he was wounded and then taken a prisoner, passing away in a German hospital.

The Deavers have recently received a very kindly letter from General W. E. Marwitz, who was in command of the German troops in the Argonne, where Lieut. Deever was engaged, and he promises to use every effort to find some clue to the missing Riverside hero whose death is now accepted as certain. It would, however, be a comfort to his relatives and friends to know where the body lies buried.

GUNBOAT SMITH WHIPPED. SAN FRANCISCO, Oct. 24.—A big house, including many women, saw K. O. Kruovskiy win in a four-round bout with Gunboat Smith.

Eller Is Fastest Pitcher Ever Handled by Rariden

Hod Eller (above) and Bill Rariden

Catcher Says Cincinnati Box Man Will Be Better Next Year

BY BILL RARIDEN

Star Catcher of World Champions) CINCINNATI, Oct. 24.—At last the National League has a pitcher who can throw the old ball as fast as Walter Johnson. He is Hod Eller, the Cincinnati pitching star of the world series.

Hod is the fastest pitcher to catch I ever handled. I have been catching him all season and ought to know.

He has more speed by far than any other pitcher in the National League. I believe you fans will agree with me when I say that when Hod made his world series start in Comiskey Park he was a finished pitcher.

He should be even better next season. I look for him to be one of the greatest pitchers of all times.

ANAHEIM NEAR LEAD IN BOWLING LEAGUE

ANAHEIM, Oct. 23.—The Anaheim Board of Trade five-man bowling team is attracting more than ordinary attention in the Los Angeles Major League Bowling league. They have won 6 of 9 games played, and could have taken three games by forfeit from Mackenzie's Colts when they failed to show up Friday, Oct. 10. But the boys showed their true sportsmanship, and let the Colts come and bowl the delayed game the following Tuesday.

The standing of the teams in the league is as follows:

Team	W.	L.	Pins	Pct.
Del Monte Cafe	5	1	5688	.333
Anaheim Bd. Trade	6	3	8180	.666
Pringle Ocean View	4	2	5251	.666
Fahy-Alterbury	4	2	5418	.666
Mackenzie's Colts	2	4	5445	.333
Nebraska Clith. Co.	0	6	2471	.000

WAITS EIGHT YEARS TO WHIP PRINCIPAL

PORTLAND, Ore., Oct. 24.—Neal Campbell, eight years ago, was 11 years old. He attended the Falling grammar school in Portland.

And Neal threw spitballs in the classroom. One hit Marjorie Brown. The ten-year-old girl cried. H. J. Boyd, the principal, investigated the cause of her grief.

And as a result, Principal Boyd applied the traditional birch rod to the alleged culprit.

Neal grew to young manhood and left Portland. He enlisted in the navy. But the intervening years and war service didn't obliterate Neal's recollection of the licking administered by Principal Boyd.

So, when Neal returned to Portland he planned to gratify an eight-year-old desire to lick his former teacher. He walked to the Falling school and announced his intention.

But the city schools have telephones. So has the police station. Just as Neal was about to get revenge the cops arrived on the scene and blasted all his fond hopes.

Campbell returned to his ship at Bremerton with the avowed intention of returning some day to "get even" with Principal Boyd. He says he won't announce what he intends to do the next time.

COGHILL KNOCKED OUT. LONDON, Oct. 24.—Fred Fulton, American heavyweight, knocked out the Australian fighter, Gordon Coghill, in the third round of a scheduled twenty-round bout last night.

PROSPECTS FOR WIN O. K. SAYS ORANGE MAN

Citrus Men In Best Shape to Play a Hard Game, Is Dowden's Opinion

BY ALBERT W. DOWDEN

Coach Orange Union High School) ORANGE, Oct. 24.—The team is in the best shape to play a hard game that it has been in this season. All of the men recently injured are back on the squad and our prospects for a win have never been better.

The team line-up for tomorrow will be as follows:

Blank, left end; Davey, left tackle; Jensen, left guard; Bird, center; Bathgate, right guard; Walsworth, right tackle; Kuechel, right end; Clabby, quarter; Stanfield, left half back; Foster, right half back; Granger, full back.

Following are the ages, weights and experience of the men on the team:

Blank, end, age 16, weight 144, second year on team, speedy and good on forward pass.

Olin Davey, tackle, age 16, weight 203, second year on team, a star lineman, always fighting.

Jensen, guard, age 17, weight 147, first year, aggressive and dependable.

Bird, center, age 19, weight 162, first year, considered best center in Southern California.

Bathgate, guard, age 16, weight 147, first year, green but a comer.

Walsworth, tackle, age 17, weight 171, third year.

Kuechel, end, age 19, weight 162, second year, fastest man on the team.

Stanfield, half, age 20, weight 135, third year, brilliant plunging back and open field runner.

Foster, half, 19 years old, weight 130, third year, fine open field runner.

Granger, full, 20 years old, weight 163, first battering line plunger and a star.

Clabby, quarter, age 20, weight 150, third year, dependable.

Richards, quarter and end, age 18, weight 135, second year, clever field general.

Carpenter, half, age 16, weight 132, second year, a hard worker.

C. Davey, full, age 16, weight 137, first year, a comer.

Taylor, half, age 16, weight 148, second year, a hard plunging back.

Eisenbraun, guard, age 18, weight 163, first year, a strong lineman.

NUT PACKING PLANT CREW WORKS UNTIL 10

ANAHEIM, Oct. 24.—Manager Geo. Ross of the Anaheim Walnut Association has been compelled, in order to handle the heavy receipts of nuts that have been pouring in on him, to work his packers until 10 p. m. daily. Even at that, the packing house is jammed with piles of sacked nuts.

He is packing them out at the rate of about four cars daily.

"The nuts are running fine," says Manager Ross, "but then this district always did have a reputation for producing fine nuts. We are putting 90 per cent of our nuts in Grade No. 1 and the rest in No. 2, none going into 'off grades.' Grade No. 1 is supposed to show 88 perfect meats out of 100 nuts. The inspectors who test every car before it goes out have found that the local nuts run above 90 per cent."

The Anaheim house will pack for at least three weeks longer.

Lower Prices

In our basement we figure on making several hundred sales a day. We do not expect much on each sale but by doing a bigger volume of business we can get our profits in this manner. Our basement costs us little rent and you are not helping to pay a high overhead expense when you buy here. It is filled at this season with everything that you will want this year for your Christmas giving and its time now to be looking these things over. You will get a better selection by buying now. Pick out what you want, make a deposit on it and we will hold it for you. Then we have a wonderful variety of furnishings for the home and new things coming every day—Watch for our Wednesday specials—you will be way ahead at the end of the month if you get in the habit of visiting our basement often.

HUNTINGTON BEACH

HUNTINGTON BEACH, Oct. 24.—The Holly Sugar Company closed down on slicing beets Wednesday, but will continue running for some time to work up the syrup. While there are considerable beets still in the ground, it is understood the Santa Ana factory will continue slicing and handle the balance of the crop.

C. H. Howard of San Dimas, was transacting business here Wednesday.

Mrs. C. W. Warner visited with Mrs. M. O. Evans at Inglewood Wednesday and Thursday.

J. N. Anderson of Santa Ana, was a caller in the city Thursday.

Good catches of fish are had from the municipal pier. King fish, mackerel, herring, smelt and perch, with some trout, and occasionally a halibut, are caught.

It is best to not be too positive about matters sometimes. A day or two ago a man riding on the P. E. car between this city and Newport paid his fare to the conductor. A few minutes afterward, when he had finished counting the change tendered him by the conductor, he said: "You evidently made a mistake in making the change with me."

"I did not," said the conductor. "I think you did," remarked the passenger.

"I gave you the proper change for your five-dollar bill," the conductor said.

Whereupon the conductor thrust his hand into his pocket and all he could find was the two-dollar bill. Then he was willing to make apologetics.

One of the San Francisco papers, The Pioneer, has the following to say regarding the promotion of Carlos C. Warner, son of C. W. Warner of this place:

"On September 23d, Secretary and Actuary Gordon Thompson announced the appointment of C. C. Warner to the position of assistant actuary, to fill the vacancy caused by the resignation a few months ago of Chas. S. Hutchings. Mr. Warner was formerly an assistant in the actuarial department and has only recently returned from military service with the American Expeditionary Forces in France. He is a graduate of the University of California and prior to his enlistment in the United States army had been in the company's employ for three years. His ability and training qualify him splendidly for the efficient handling of the details of the actuarial department and his promotion marks the company's recognition of that ability."

A number of hunters have already left fines of \$25 each in the justice's court for violation of the game law, but no one so far has been into court here for road shooting.

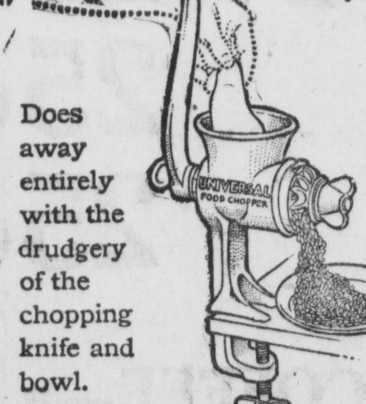

BEFORE YOU SAY GOODNIGHT

Prepare for a Clear, Bright Day Tomorrow by Taking "Cascarets" for Liver and Bowels

Drive away these persistent enemies of happiness—biliousness and constipation. Don't stay headachy, sick, tongue coated, sallow and miserable! Get rid of colds, indigestion, upset stomach, or that misery-making gas. Feel splendid tomorrow by taking Cascarets tonight. Cascarets are so pleasant, so harmless. They never gripe, sicken or inconvenience you. Like Calomel. Salts. Oil or nasty, harsh pills. They cost so little and work while you sleep.—Adv.

WINTERSBURG AND SMELTZER

WINTERSBURG, Oct. 24.—The Happy Workers held their all-day monthly meeting at the home of Mrs. Moomau Wednesday. A sumptuous chicken dinner was served, including beside fried chicken, mashed potatoes and gravy, cabbage salad, bread and butter, jelly, apple pie, cheese and coffee. Twenty-six were present, and fancy work and conversation occupied the time. Plans were discussed for the next meeting, which is the husbands' meeting and dollar social, and will be held on the fourth Wednesday in November. Each member is supposed to bring a dollar,

which she has earned by her own efforts and tell how it was done. Mr. and Mrs. Harry Sutphin of Brea, Fred Parr of Irvine, and Miss Doris Thorpe of Santa Ana, were guests Sunday of Mr. and Mrs. Chas. Parr.

Mr. and Mrs. Percy Lawrence went to Beaumont Friday, returning Sunday evening.

O. J. Day and Guy Mansperger went to Imperial Sunday, returning Tuesday.

R. E. Larter left Tuesday for Chowchilla, Madera county, on a business trip, expecting to be gone three or four days.

Mr. and Mrs. Charles Sherwood and two children of Los Angeles, were in town Sunday looking after the McFadden property. They called at the J. H. Walton home.

The subject of Rev. W. T. Ward's sermon at the Presbyterian church Sunday morning will be, "Jesus in the Center of Things." In the evening the topic will be "Study of the Book of Origins."

J. L. Hughes began plowing ten acres for Dr. M. L. Richards, preparatory to putting in barley this week. He has leased the King place for five years. This place has been rented the past two years by H. Swall.

Mrs. George Abbott and her brother, Eugene Hickox, spent the weekend at Huntington Park with her daughter, Mrs. Mattie Wilson. Mr. Hickox, on his return Sunday evening left for San Diego for a few days and will then return to Selma. He has been spending a three weeks' vacation here with his sister.

Irvin Johnson, nephew of Mrs. J. H. Walton, and his aunt, Mrs. DeWitt of Los Angeles, called Sunday at the Walton home on their way home from Santa Ana. Mr. DeWitt, who slipped and injured himself while at work in a well in Santa Ana, is in the hospital there.

H. R. Hansen came home Tuesday night, the bean threshing job being completed.

Mr. Merrill began work in the Long Beach shipyards last week, going back and forth on the stage.

LEGAL NOTICES

RESOLUTION NO. 636

A Resolution of the Board of Trustees of the City of Santa Ana, California, Declaring its intention to establish, re-establish, fix and more particularly define and describe the grade of First Street from the center line of Mabury Street on the East to the center line of Artesia Street on the West.

The Board of Trustees of the City of Santa Ana, California, does resolve and declare as follows:

Be it resolved, that it is the intention of the Board of Trustees of the City of Santa Ana, California, to establish, re-establish, fix and more particularly define and describe the grade of First Street from the center line of Mabury Street on the East to the center line of Artesia Street on the West, said above named streets being public streets in the City of Santa Ana, California.

Section 1. To establish and re-establish, fix and more particularly define and describe the grade of First Street from the center line of Mabury Street on the East to the center line of Artesia Street on the West, said above named streets being public streets in the City of Santa Ana, California.

Section 2. That the grades established shall determine the distance in feet of the designated point and the intervening space on a straight line between said points, and that the datum plane established by the City of Santa Ana, California, and thereafter adopted and approved by the Board of Trustees of the City of Santa Ana, California, shall be the datum plane.

Section 3. At the intersection of the center line of First Street with the center line of Artesia Street \$1.90 feet above the datum plane.

At the intersection of the center line of First Street with the center line of Pacific Ave. \$4.60 feet above the datum plane.

At the intersection of the center line of First Street with the center line of Hesperian St. \$3.35 feet above the datum plane.

At the intersection of the center line of First Street with the center line of the datum plane.

LEGAL NOTICES

protest against the proposed work or the manner in which the same is being performed or in any manner pertaining to said work or improvement and show cause why said proposed improvement should not be carried out in accordance with this Resolution.

Section 5. The City Clerk shall cause this Resolution of Intention to be published three times in the Santa Ana Daily Evening Register, a newspaper of general circulation in the City of Santa Ana, California, which paper is hereby designated for that purpose by the aforesaid Board of Trustees of said City.

Section 6. The Street Superintendent shall cause to be conspicuously posted along the line of said contemplated work or improvement and in front of all the property liable to be assessed for the payment of said work or affected in any manner by said improvement notices of the passage of this Resolution of Intention in the manner and form required by law.

All of the herein proposed work to be done in pursuance of an Act of the Legislature of the State of California designated the Improvement Act of 1885, approved March 18th, 1885, and amendments thereto.

The above Resolution was passed and adopted this 20th day of October, 1919, by the following vote, to-wit:

Ayes: Trustees Chapman, Dale, Greenleaf, Mitchell, Noes, Trustees, none.

Absent: Trustees, none.

Attest: J. G. MITCHELL, President of the Board of Trustees of the City of Santa Ana, California.

Attest: E. L. VEGELY, City Clerk.

OFFICIAL STATEMENT OF THE PROCEEDINGS OF THE BOARD OF SUPERVISORS OF ORANGE COUNTY, CALIFORNIA.

Santa Ana, Cal., Oct. 21, 1919.

The Board met pursuant to adjournment at 10 o'clock, A. M., at the City Hall, Santa Ana, California.

Present: Chairman, S. H. Finley, N. T. Edwards, and the Clerk, Absent, Supervisors Wm. Schumacher and H. A. Wasson.

Demands on the County of Orange were allowed as read.

The hearing on the petition for formation of Buena Park and Cypress Drainage District was continued to Nov. 5, 1919, at 10 a. m.

The proceedings leading up to the issue of Santa Ana High School District bonds having been rejected by the attorney for the purchaser on account of alleged defects therein, it was ordered that the certified check of the purchaser be returned.

Bids for Villa Park School District bonds were received and opened, and the bid of Bank of Italy of par, accrued interest and a premium of \$294.50 was accepted for the \$15,000 issue of 5 per cent bonds of said district.

It was ordered that Warrant No. 7581 for \$3.89 payable to News Press on Oct. 18, 1919, at 10 a. m., be cancelled, same being a duplicate.

Supervisors Wm. Schumacher and H. A. Wasson were directed and assumed their duties as Supervisors.

The County Clerk was directed to advertise for sale in the Orange County News, Lot of Property of the Santa Ana Subdivision of the Yarnell Tract, adjoining the City of Orange, said property to be sold at public auction at the north front door of the Court House on Nov. 5, 1919, at 10 a. m.

The application of C. H. Williams to construct a concrete curb in front of his property on North Glassell Street in the Fourth Road District, was granted.

The County Auditor was directed to transfer \$8450 from the Harbor Fund to the County General Fund.

It was ordered that notice be given to W. W. Krick to remove or cause to be removed any and all obstructions he has placed, or caused to be placed, in a certain natural wash, east of the County Bridge on Placencia Avenue.

The hearing on the petition of Annie M. Lawrie, et al. was set for Nov. 18, 1919, at 10 a. m., notice to be given once a week for three weeks in the Anaheim Gazette.

The petition of David Hewes Realty Co., et al. to vacate a certain road in the Fourth Road District, was granted.

Fumigating Certificates were issued to Garden Grove Citrus Assn., Allen & Engel, Stowell Spraying and Fumigating Co., R. E. Coffman, Arthur R. LaFollette, and Moraga & Woodhead, and spraying licenses were ordered issued to R. R. Garcia, C. E. Douglas and J. B. Morgan & Sons, on recommendation of the Horticultural Commissioner.

The Chairman was authorized to approve the bond presented with petition for formation of Buena Park and Cypress Drainage District.

The Purchasing Agent was authorized to purchase machinery and install same, for improvement of septic tank at the County Farm.

The application of Standard Oil Company to lay pipe line in the Third Road District, under the Placencia-Yorba Boulevard and across the City of Orange, also to excavate across six county roads south of the A. T. & S. F. Ry. near Richfield, was granted.

Ordinance No. 16 providing for holding of regular meetings of the Board of Supervisors on every Tuesday of each month, beginning at ten o'clock, a. m., was read and adopted, said ordinance to be published according to law in the Santa Ana Daily Evening Register.

The Clerk was directed to give notice for bids in the Orange County Plaindealer for improvement of Olinda Road in the Third Road District. Bids to be opened Nov. 18, 1919, at 11 a. m.

The application of Santa Ana Valley Irrigation Company to construct a 12 inch concrete pipe line across N. Cambridge Street, was granted.

It was ordered that the Resolution of Intention in the matter of Road District Improvement No. 4, Resolution of Intention No. 4, be re-posted and republished in the manner and for the time required by law, and the date of hearing thereon set for Dec. 2, 1919, at 1:30 p. m.

The hearing on Road District Improvement No. 3, Resolution of Intention No. 3, was continued to Dec. 2, 1919, at 1:30 p. m.

The hearing on the petition of S. W. Price, et al. for county road in the Second Road District, was continued to Dec. 2, 1919, at 2 p. m.

A resolution was passed declaring the petition of the Board of Supervisors to avail itself of the provisions of the County Engineer Act on or before the first day of January, 1920.

It was ordered that Assessment of \$375 on personal property attached to Lot 3, Block A, Henry Michel, be cancelled, said assessment being a duplicate.

A deed for right of way from S. O. Seidel, et al. was accepted and said road declared a public highway.

The hearing on the petition of Mrs. Mary L. Crutcher, et al. for the formation of Buena Drainage District, was set for Nov. 18, 1919, at 10 a. m., and the Clerk was directed to publish notice as required by law in the Santa Ana Daily Evening Register.

The Board rescinded the former action annulling the petition of the Del Norte School District, and Garden Grove School District to the Santa Ana High School District, the Central School District, the Anaheim Union High School District, and the Yorba School District to the Fullerton Union High School District.

The Board adjourned to Oct. 28, 1919, at 10 a. m.

J. M. BACKE, County Clerk and ex-officio Clerk of the Board of Supervisors.

NOTICE

Notice is hereby given that a meeting of the stockholders of the Orange County Ignition Works, a corporation, has been called by the Board of Directors, to be held and the same will be held at the principal place of business of said corporation, 302 East Fifth Street, in the City of Santa Ana, Orange County, California, the same being the building where the directors usually meet, at 10 o'clock a. m. on the 18th day of December, 1919.

The purpose of said meeting is to increase the capital stock of said corporation from 100 shares of par value of 100 Dollars each to 500 shares of the par value of 100 Dollars each.

BIG MISSIONARY NOT DEMOBILIZED ONLY BEST FIG TREES SHOULD BE PLANTED

Methodists Seek Volunteers For Work Both at Home and Abroad

NASHVILLE, Tenn., Oct. 24.—The Board of Missions of the Methodist Episcopal Church, South, with headquarters in this city, is calling for 735 new missionaries, to be sent out during the next five years in connection with the Centenary program, for which many millions of dollars were subscribed last summer. These are to be divided about equally between the home and foreign fields and both men and women are eligible to appointment.

For the foreign work there will be needed preachers, teachers, kindergarten, domestic science specialists, physicians, surgeons, nurses, writers, translators, publishers and industrial workers. Of these Japan calls for thirty-three, Korea for sixty-three, China for seventy-seven, Africa for twenty-eight, Mexico for seventy, Cuba for twenty-seven, Brazil for eighty-nine. The number that will be required for the work to be opened in Europe has not yet been determined.

For the work in America there will be needed four superintendents of missions, ten preachers and twenty teachers among foreigners, ten nurses, five teachers among negroes, and a large number of deaconesses. Seven superintendents of mountain work are needed, ten specialists in city work and ten in rural work, four superintendents of night schools, and a large number of social workers in addition.

Fifteen Mexicans, ten Indians, five Bohemians, ten French, eight Italians, and ten Cubans are to be prepared for pastorates among their respective people in this country.

This enlarged program will offer opportunities for life service to hundreds of young men and women properly fitted by character and training. The recruiting of volunteers for this work will be largely in the hands of Rev. C. J. Houshelt and Mrs. Hume R. Steele of this city, the candidate secretaries of the board.

Looking for Jobs.

Major General William G. Haan, who has succeeded Colonel Arthur Woods in charge of the work, points out that many former soldiers who have found no special need of seeking employment during the summer will now be in the market looking for jobs, while many others who had seasonal occupations will also be out of work, and to these are now added those who seek readjustment. The main idea is, of course, to provide the soldier with a job, but a secondary purpose is to make him feel that he has friends who are endeavoring to look out for his best interests.

In a letter to the 2,500 agents throughout the country is this resume of the work:

"A great deal has been accomplished; a very splendid work has been done; but the job is not quite finished. Some of the most difficult cases remain unplaced; cold weather will in all probability bring us a number of others. We owe it to the men and to our past record in this work not to quit until we reach the 100 per cent mark. We should not stop with goal in sight. Where there is any question as to the advisability of continuing the work, we should give the men the benefit of the doubt. It is very much better that we make the mistake of continuing our efforts a little too long rather than make the mistake of stopping a little too soon.

Placing Disabled Men.

"One of the most important parts of our work for the future is to be the placing of the disabled service men in gainful occupations; that is, the men who are not eligible for re-training by the Federal Board for Vocational Education. This included the men who are not only disabled by wounds and injuries, but the men who are disabled by disease, whose vitality has been reduced, and whose physical condition is such as to require them to get a job in the open air in high dry climates, or in light indoor occupations. These are the men who have made the great sacrifices, and a grateful country certainly owes them the opportunity to re-establish themselves in self-supporting occupations. With the coming of winter, these men, unless they receive our assistance, are going to face both hardship and humiliation."

The United States is divided into four districts: Northeastern, with offices in Boston; Eastern, New York City; Central, Indianapolis; Western, San Francisco. A personnel of 38 officers and field representatives cover the country.

Collect Information.

They will visit the respective towns and cities within the district for the purpose of collecting information as to the exact situation, smoothing out difficulties, removing friction where possible, and coordinating the activities of the various welfare and business organizations constituting the employment agencies that handle the job problem. The employment agencies from the Chamber of Commerce, or Board of Trade, as the case may be, and from various welfare organizations including the Red Cross, Y. M. C. A., Knights of Columbus, War Camp Community Service, National Catholic War Council, Jewish Welfare Board and Salvation Army. In some cities the Chamber of Commerce, or one or more of the welfare societies maintain their own separate bureaus. The dollar-a-year representatives will continue in the regular office.

The American Legion is cooperating with these bureaus in the matter of employment, and in stimulation of public works. In some places where the support of the welfare agencies have been withdrawn, the American Legion has taken over the employment problem with fine results.

OVERHEATED BROODER CAUSED LOSS OF \$300

J. P. Woody, proprietor of the Lone Blue Gum Poultry Ranch, at Cypress, experienced quite a loss by a defective stove in one of his brooder houses recently. He had just received 120 baby chicks from one of the noted Petaluma flocks, was especially proud of them and was giving them every attention. Just before retiring, or about 11 o'clock one night, the chicks were doing nicely and the stove was working to perfection. He awakened at an early hour the next morning and upon visiting the brooder house, found the stove had overheated during the night and his chicks were a total loss. The amount of loss was around \$300.

Welfare Associations Will Continue Work For Service Men

WASHINGTON, Oct. 24.—"No service man will be considered demobilized until a job has been found for him."

This statement is authorized by the Office of the Assistant to the Secretary of War as a result of the shutting down of the United States Employment Service on October 10, because of lack of funds. An added task now confronts the War Department in its nationwide work of putting back every honorably discharged service man into civil life. The 2,500 bureaus for soldiers and sailors throughout the United States will be continued, with the assistance of the numerous welfare associations and civilian volunteers, many of whom are dollar-a-year men.

Secretary Baker, in thanking the numerous agencies which have contributed so much towards putting soldiers and sailors back at work, is issuing a request through the Office of the Assistant to the Secretary that they keep up their work until the last service man has been re-employed. In some cities there appears to be a belief that the necessity for employment bureaus for discharged service men no longer exists because in parts of the country conditions are so satisfactory.

Major General William G. Haan, who has succeeded Colonel Arthur Woods in charge of the work, points out that many former soldiers who have found no special need of seeking employment during the summer will now be in the market looking for jobs, while many others who had seasonal occupations will also be out of work, and to these are now added those who seek readjustment. The main idea is, of course, to provide the soldier with a job, but a secondary purpose is to make him feel that he has friends who are endeavoring to look out for his best interests.

In a letter to the 2,500 agents throughout the country is this resume of the work:

"A great deal has been accomplished; a very splendid work has been done; but the job is not quite finished. Some of the most difficult cases remain unplaced; cold weather will in all probability bring us a number of others. We owe it to the men and to our past record in this work not to quit until we reach the 100 per cent mark. We should not stop with goal in sight. Where there is any question as to the advisability of continuing the work, we should give the men the benefit of the doubt. It is very much better that we make the mistake of continuing our efforts a little too long rather than make the mistake of stopping a little too soon.

News from Orange County Towns

STEAK BAKE AT STANDARD GETS COUNTY PARK BY FACULTY

Teachers of Orange Union High School Indulge In Evening of Pleasure

ORANGE, Oct. 24.—The faculty Club of the Orange Union High School enjoyed a steak bake at the County Park Tuesday evening. Messrs. Kaylor and Forbes roasted steaks for the fifty-seven people who were seated at three long tables.

As the electric lighting system at the Park was undergoing repairs, no lights were available for the evening so the games that had been planned were postponed.

Several auto lights were turned on the pavilion and after supper, the crowd gathered there and enjoyed a short program. Misses Alberta and Lucile Brunton furnished several musical numbers and Captain Brunton told a few of his experiences overseas.

In addition to the families of the Faculty members, the following were the guests of honor: Mr. and Mrs. Evans, Mr. and Mrs. Thomson, Mr. Bollinger and son, Donley.

O. D. O. Club.

The O. D. O. Club met with Mrs. Frank Knight of South Tustin street. The afternoon was spent with fancy work. Mrs. Knight surprised the ladies of the club with a delicious dinner consisting of turkey, cranberry sauce, etc. She was assisted with the serving by the Misses Florence Mitchell and Mae Knight.

Mrs. George Franzen was appointed president of the club at the meeting. The next meeting will be held with Mrs. McCarthy of West Chapman avenue.

Those present were: Mesdames N. U. Potter, J. V. Meehan, J. H. McCarthy, C. B. Christensen, Wm. Wagner, Wm. Waechter, Wm. Mitchell, George Franzen, C. J. Porter, Miss Florence Mitchell, Miss Mae Knight, and the hostess, Mrs. Frank Knight.

Farewell for Mrs. Powell.

One of the most pleasing affairs given recently took place at the home of Mrs. Rebecca Northcross on Avenue 54, Los Angeles, honoring her daughter, Mrs. William T. Powell, both former residents of Orange. Mrs. Powell who will be remembered as Miss Ellie Northcross, leaves shortly for Orem, near Santa Maria, where she will make her home so the party was in the nature of a farewell courtesy, giving her an opportunity to meet a few of her close friends, before leaving for the north.

Rich yellow roses were used as table decorations, covers being laid for the following guests: Mrs. John Jonlin of Santa Ana, Mrs. Harriet Parker and Mrs. William Thomas, nee Miss Winifred Perkins, of Los Angeles, Mrs. T. H. Elijah, Mrs. G. E. Hart, Mrs. W. O. Hart, Mrs. Clarence Ritter, Mrs. Logan Jackson, Mrs. H. S. Huff, all of Orange and the hostess, Mrs. Rebecca Northcross of Los Angeles.

Episcopal Ladies' Rummage and Cooked Food sale October 24 and 25.

The goblins will get you if you don't try the Dragon's special Halloween cakes and pumpkin pies.

Yes, we know you will sooner or later. Why not now? Call the Sultorium, 279. Prompt auto service.

Dr. Magill, Osteopathy. Phone 956-W

"My dear, I've brought you home some tea. The grocer says it's great."

"Oh, Schilling Tea? He tried to sell it to me, but I thought it cost too much."

"It does cost a little more per pound, but Mr. Williams says a pound of Schilling Tea makes so many more cups that it's really cheaper than the tea we've been using. And, anyway, I'm tired of that puckery taste. So now how about a cup of real fine tea?"

There are four flavors of Schilling Tea—Japan, Ceylon-India, Oolong, English Breakfast. All one quality. In parchment-lined moisture-proof packages. At grocers everywhere.

A Schilling & Co. San Francisco

3500 BARREL PRODUCER

New Well Is One of Largest Which Has Been Brought In Recently

FULLERTON, Oct. 24.—A 3500-barrel well was brought in by the Standard Oil Company on the Murphy lease Monday, it became known here yesterday. The well, No. 66, completed at 2833 feet, is the second largest well brought in during the year, and maintains the supremacy of the Murphy property as the home of the biggest oil producers and the greatest producing lease in the state.

Roe Little is the man who brings in the big wells on the Murphy for the Standard and unless he does not bring in a well making three thousand barrels or more a day he will not even comment on it.

Breaking out of its bounds and flowing and tearing itself literally to pieces, sanding up and pipe clogging, the Standard Oil Company's Murphy No. 61 has been cleaned out, fixed up and put on the beam. To the utter surprise of all who saw this well in action last August, it is now doing only 300 barrels.

CYPRESS NEWS BRIEFS

CYPRESS, Oct. 24.—Mr. and Mrs. Hugh La Rue are planning to take an auto trip to San Francisco this week. They will start from home today and will be away a week. They are going to visit their son Ralph, who is at Berkeley this year, and will be accompanied by Mrs. Douglas Naylor and Mrs. Francis Naylor and baby of Los Angeles. On their way back home they will stop at Tulare and visit relatives.

The P. T. A. will meet at Cypress school house today. The county superintendent will speak to the ladies. Mr. and Mrs. A. R. Bradley went to Whittier last Saturday evening and took supper with Mrs. Smith and spent the night at the home of John Wertz at Whittier.

Mr. and Mrs. Sidney Feagan and Mr. and Mrs. Sam Winters are motoring to San Francisco and the northern part of the state this week. Mrs. M. B. Feagan had the Nazarene prayer meeting at her home last Wednesday evening. The minister and his wife spent the night there.

Mr. and Mrs. Cuthbert Miller and Mrs. Monroe and children motored to Orange County Park last Sunday, where the day was enjoyed. Mr. and Mrs. Hugh La Rue, Mr. and Mrs. A. R. Bradley and Mrs. T. M. Gillison and son motored to Los Angeles Sunday. Mr. and Mrs. Bradley visited a cousin, and Mr. and Mrs. La Rue and Mrs. Gillison and son called on Mrs. Douglas Naylor.

Mr. and Mrs. O. P. Bunyard and Carroll Bunyard of Cypress, Mr. and Mrs. Carl Boston and son, Mr. and Mrs. Frank Long of Los Angeles, and Mr. and Mrs. Ed Wylie of Rivera, all motored to Aliso canyon on a fishing trip last Saturday afternoon, remaining till Monday evening. There were lots of fish caught and lots of game killed which was cooked over a camp fire.

Mr. and Mrs. Clyde Stoner were visitors at the Gillison and La Rue homes last Sunday evening.

Mr. and Mrs. Smith motored to Cypress from Whittier last Wednesday evening and took supper with Mr. A. R. Bradley and spent the evening playing cards.

Mr. and Mrs. Hugh La Rue and Mrs. Gillison and son Andrew motored to Anaheim last week to see Charles Ray in "The Egg-Crate Wallop" at the Fairland.

There are only four women at the Beanyery this week as they only have room for the one table on account of the beans coming in so fast. Hugh La Rue cashed a check the other night for a young man and after he had gone it was learned that it was forged on Mr. Musser and that he had no money in that bank, so Mr. La Rue went down to Santa Ana and swore out a warrant last Tuesday.

The same young man went into the bank at Artesia and tried to pass another bad check and Mr. Frampton felt suspicious and called up Mr. La Rue. He went up and identified the lad and took him down to Santa Ana.

The Cypress beet dump is about ready to close as there are only two haulers now.

Mrs. F. M. Gillison spent the night with Mrs. Guy Cox last Monday. Thomas Gillison, Henry Lucas and Gus Lamb motored down to the Santa Ana factory last Tuesday morning and brought home some samples of fine sugar.

O. P. Bunyard is still picking his green tomatoes, but the ripe ones the canneries refuse to take as they say they can't sell them now.

Mr. La Rue is digging his sweet potatoes this week and they are fine. Mr. Bates was a business visitor last Thursday in Los Angeles.

Robert Vaughn had been away from Cypress last week, but returned this week.

The Los Alamitos sugar factory will probably be closed about the first of the month. The Cypress men all hope so as they are all getting tired working every night.

CASTORIA

For Infants and Children In Use For Over 30 Years

Always bears the Signature of

WINTERSBURG and SMELTZER

WINTERSBURG AND SMELTZER, Oct. 24.—Mrs. E. Ray Moore was accompanied to Santa Ana Wednesday by Mrs. B. A. Farrar, Mrs. G. M. Robertson and Mrs. Jerusha Harlan and following a shopping expedition the ladies called on Mrs. Ed Moore. The Moores have just moved from Orange and are now located in their beautiful new home which has but recently been completed.

Rev. J. Scott Willmarth, pastor of the Wintersburg Methodist church, announces as his subject for next Sunday morning "Power," and the evening subject to be "Pardon." The services will be held according to the change of time which will be as follows: Sunday school, 10:15 a. m.; preaching service, 11:15 a. m.; Epworth League, 7 p. m.; preaching service, 7:30 p. m.

Mr. and Mrs. F. M. Pryor entertained as Sunday guests the latter's sister, Mrs. J. T. Worthy; nieces, Mrs. Boydon Hall and Miss Varona Worthy, and nephew, Conrad Worthy, and wife.

J. T. Lewis, father of Mrs. D. W. C. Dimock, came in from Big Bear Valley last Saturday evening to remain. They had been at the resort all summer and Mr. Lewis finds that the high altitude has been greatly against his health.

Mrs. Harry Wilson and Mrs. Ed Hoffman and the latter's daughter, Luella Hoffman, were guests from Los Angeles at the W. F. Slater home Wednesday.

C. E. Hoff spent Wednesday in Los Angeles as a visitor at the livestock show.

B. A. Farrar refused an offer this week of \$1,000 an acre for half of his twenty-acre ranch. The oil prospect is creating a vast change in chances for land exchanges here.

Mrs. B. A. Farrar received a card Tuesday from Miss Mabel Ross, telling of the improvement in the condition of her brother, Roy Ross, who has been ill for weeks. He sat up in bed, she stated. The change from the hospital where he remained ten days and was very much dissatisfied to the home of his uncle, Rev. Fred Ross, is responsible for the improvement. Mrs. Ross expects to leave within the week for Greenfield, taking Ross and the other children with her. Rev. Ross has been at his new station since leaving here and is most favorably impressed with his work and surroundings. Among his congregation he found two former friends who were his most prominent members at San Luis Obispo when he was pastor there.

E. A. Hoff and wife, the former a brother of Mrs. E. A. Fox, were Sunday guests at the Fox home, together with Mrs. Hoff's parents, Mr. and Mrs. Malton, who accompanied them from Los Angeles. Both families reside in that city.

Mr. and Mrs. B. G. Wettlin and two children of Orange, were guests over Saturday and Sunday at the home of Mrs. Wettlin's parents, Mr. and Mrs. E. M. Fryer.

Mrs. Wilfred Lewis, who went east some time ago with the G. A. R. excursion, is expecting to start for home the first of November, according to word received from her. At the time of writing, Mrs. Lewis was still at Dayton, Ohio, and expected to leave the 21st for Livingston, Ill., for a ten days' stay, and from there she is coming home. The weather has been very pleasant during her stay there, she states.

Mrs. Homer Sprinkle, Mrs. John Kettler, Mrs. Emil Kettler, Mrs. B. T. Gothard, Mrs. C. E. Berry and the latter's mother, Mrs. Will Knighton, of Pasadena, who is a guest at her home, motored to Westminster Wednesday and attended the monthly all-day meeting of the Happy Workers' Society. About thirty ladies were present.

Mrs. A. H. Moore arrived home Tuesday morning after a five weeks' absence in the East. While away she was at Hudson, Indiana, at the home of her father, to whose bedside she was called. His condition was greatly improved when Mrs. Moore left.

Roy Morgan returned Sunday after a week's absence spent at Davis agricultural college, where he went as a representative of the Huntington Beach High School. Lectures and practical demonstrations were given in all branches of farming and stock raising for the visiting boys, who numbered 350 and were from all parts of California.

Alice and Gardner Willmarth entered the Oceanview school this week, the former as a pupil in the seventh grade and the latter in the fifth grade.

Mrs. A. H. Moore spent Wednesday at Mrs. N. E. Dwyer's, with her daughter, Mrs. James Haptonstall, who is caring for Mrs. Dwyer during her illness. Mrs. Dwyer is somewhat improved.

Dr. S. G. Huff and son, Ralph Huff, have leased their seventy-acre ranch to an independent oil company. The contract is for twenty years with a remuneration of \$15 per acre down and 8 per cent royalty.

The end of the bean harvest is near and two of the large threshers in the community have quit for the season. The Golden West threshing pulled in Tuesday evening and A. H. Moore's on Wednesday. The scattered crops in this district yet in the field are expected to be in the warehouse by the end of the week.

OIL BUBBLES THROUGH MUD OF HEFFERN WELL

There was considerable excitement at the Heffern well late Tuesday afternoon when oil and gas bubbled up through the mud to the top of the pipe and has continued to bubble since, which leads the drillers and those interested in the well to believe that a gusher will be brought in before the well goes much deeper.

News of the threatened gusher spread quickly about the oil district and soon there was a large crowd of interested oil men on the ground, progress on this well being watched more closely than on any well in the entire oil field.

A number of the stockholders visited the well and are jubilant over the prospects.

The promoters of the Heffern have no object in boosting their property, as there is no stock for sale, every stockholder declining to let go of his stock, although many of them have been approached and could have sold their stock at a good profit, but they are all so highly pleased over the showing that they are going to see it through and sink or swim together.

See R. A. Tiernan Typewriter Co. for rentals, repairs and guaranteed rebuilt machines. 219 West Fourth street. Phone 137.

FULLERTON WILL PROCEED WITH LIGHT PLANS

Ornamental Lights to Be Installed In Business and Residence Section

FULLERTON, Oct. 24.—Within a reasonable length of time, or as soon as all necessary legal matters are attended to which will satisfy the law, Fullerton will have installed an ornamental lighting zone, second to none.

Concrete steps toward the installation of the lights was taken Tuesday night at a meeting of the city board of trustees when the kind and style of poles were decided upon and as soon as the specifications and plans are drawn up, bids will be called for.

Cast iron poles will be used on Spadra from Union to Truslow and for a block east and west of Spadra on Commonwealth, and in the residence district marbleite poles will be used. Each pole will have three lights, one on top and the other two on a crossbar. The poles are so made that the number of lights can be increased at any time with but very little cost.

The cast iron poles will cost about \$55 and the marbleite poles about \$65. The city anticipates no trouble in having the telephone poles and wires removed from the streets included within the lighting zone, but there is expected to be considerable delay in removal of the Edison poles and high-powered wires. This will be quite a difficult job and according to a statement from one of the officials, it will take nearly one year to accomplish the removal.

Resinol heals eruptions

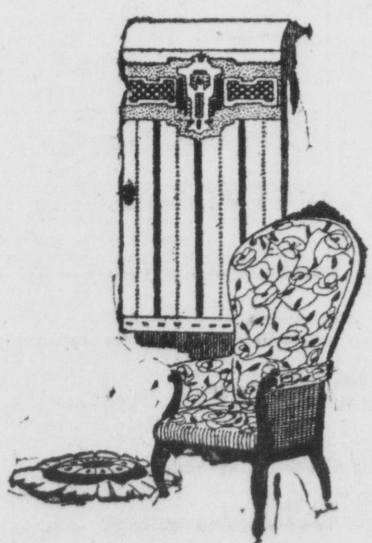

Only those who have undergone them can realize the mental and physical discomforts which many skin affections cause. The distressing appearance and the intolerable itching and burning too often make life really miserable. Yet Resinol Ointment, aided by Resinol Soap, generally overcomes these troubles promptly, even if they are severe and long-established. The Resinol treatment stops itching instantly.

Resinol Ointment and Resinol Soap are sold by all druggists. Why don't you try them?

—we begin where the carpenters leave off

Our years of experience and study in the art of home decorating has made it possible for us to take up the work where the carpenters leave off and transform the bleak barren walls into a beautiful, inviting harmonious scheme.

When you plan the new home, or remodel the old—let us help you with the decorating. We can supply you with just the right shades in wall paper and colors in tints that will never clash.

—Turning Back the Clock

On October 26, the people of America will turn back the hands of their time-pieces in every home. This day officially ends the Daylight Saving Plan, now in use throughout Europe and adopted by our government two years ago.

In making this change from the Daylight Saving Plan to "Sun Time" by a single official act, we usher in the winter season. With winter come longer nights and with longer nights the need of proper heating facilities.

—Burn Natural Gas

Wise housewives have already made plans for heating their homes with the most economical fuel, Natural Gas. At a low cost, it gives forth a warmth not equalled by any other fuel.
